ALGERIA TOPPLING FAST

BULL-HEADED BULL

This 2-year-old registered Angus came out second best with a fractured foreleg after he and another bull on a farm near Tuscaloosa, Ala., bull-headedly refused to settle a dispute peacefully. So he'll sit on the sidelines 4 to 6 weeks with his leg in a splint rigged by a local veterinarian.

—TANK TRUCK EXPLODES—

Fiery Brakes Wreck Town

Berlin, N.Y. (AP) —A tank truck loaded with propane gas exploded Wednesday on a steep hill in this eastern New York community, destroying at least 9 homes and a church, and damaging at least 11 other houses. The driver died later in a hospital.

State police said more than 19 persons were taken to hospitals in nearby Troy and in Bennington, Vt. Several were reported in critical condition.

The driver was identified tentatively as Robert J. McLucas, 39, of Pomeroy, Chester County, Pa. State police said he was driving a truck leased by E. Brooke Matlack Inc. of Philadelphia, Pa.

Caught Fire

Firemen said the truck's brakes apparently caught fire while it was coming down a steep, winding, two-mile-long hill on New York 154, a short distance from the intersection of New York 22. The community of a few dozen homes is about 12 miles from the New York-Massachusetts-Vermont state line.

Robert Moses, Berlin postmaster, was closing the post office at 5:30 p.m. when he heard the explosion.

"It was terrible . . . I ran toward my house . . . it was a mass of fire."

Moses' home was among those destroyed.

Church Leveled

The 150-year-old First Baptist Church also was leveled.

The blast occurred in front of the home of Mr. and Mrs. Kenneth McCumber, who were inside the house at the time. They were found in a field about 200 yards behind the house, badly burned.

A neighbor, Clifton Shuhart, said he was standing several hundred yards from the McCumber home. He said the house seemed to disintegrate almost at once in a mass of flames.

Clapboards

"You could see the clapboards come right off the place," he said.

The cab of the truck was blown off and landed about 100 feet away. The driver was found on the ground nearby.

Holden Gutermuth, 24, said he witnessed the accident from a field about 100 yards from the McCumber home. He gave this account:

"I heard the truck coming. The brakes were squealing. Then there was a pause, then a pop, then a blam.

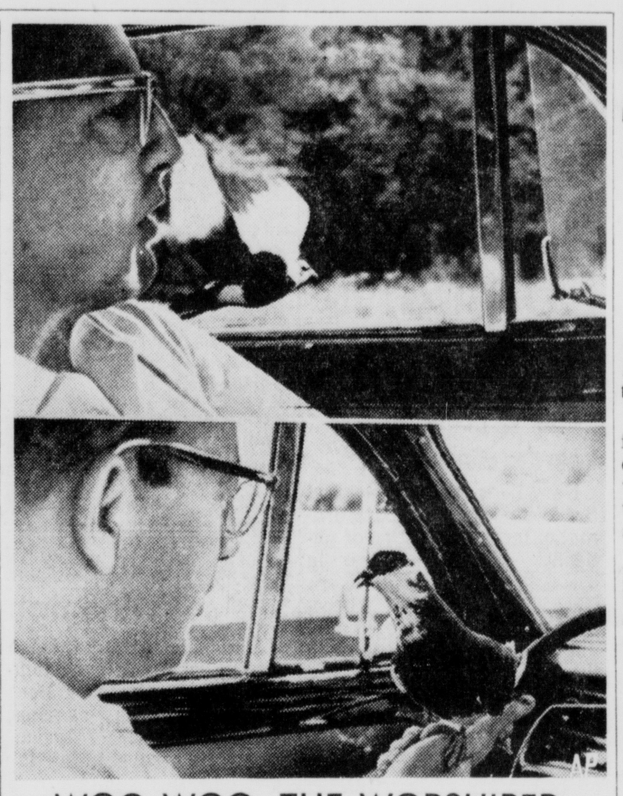

Bright Orange

"It (the flames) must have gone 150 to 200 feet in the air . . . it was bright orange."

Miss Leona Gayle Jones, 21, was driving home from Albany, about 20 miles east of here, and was about 600 feet behind the truck when it exploded.

"I don't know what made me stop but I did," she said. "I saw a woman and baby running up the street—all burned."

Sixteen fire departments fought the blaze. At least 11 ambulances were at the scene.

WOO WOO, THE WORSHIPER

Woo Woo, a pigeon, flies alongside the car of E. Russell Hutson of Overland Park, Kan., and sometimes takes a rest inside. Hutson says the bird became devoted to him after he rescued it from a cat and cared for it 3 days. After the bird was released, Hutson says it refused to leave, now hangs around the house, flies alongside the family car and even follows him to work. He says the pigeon can keep up with the car at speeds near 45 miles per hour.

Ben Bella Takes Tightening Grip

His Troops Menace Capital City And Civil War Threatens

Algiers (Thursday) (AP)—Algerian troops rallying to Deputy Premier Ahmed Ben Bella controlled three-fourths of Algeria Thursday and moved menacingly toward this capital city.

Ben Bella claimed his forces have achieved power over the country. They have won battles for the big cities with ease outside Algiers itself.

Ben Bella

Premier Ben Youssef Ben Khedda, defended by soldiers still loyal to his shaky central government, warned the new nation that civil war threatened.

His troops set up machine gun defenses around the capital in anticipation of a final assault on the road to complete power for Ben Bella.

Call for Resistance

A few ministers of the Ben Khedda government fled to the Kabylie mountains to join with some 8,000 guerrillas in a stand against Ben Bella. From there they called on the population and soldiers who fought for independence from France to organize resistance "in every town, village and hamlet."

In Paris, Louis Joxe, minister for Algerian affairs said the French army might have to intervene to restore order.

Ben Bella's followers seized the east Algerian city of Constantine, with some bloodshed. The Mediterranean seaport of Bone fell without struggle and Ben Bella controlled most of the major cities but for the capital. Troop convoys pulling Czech and Soviet cannon rolled slowly eastward toward Algiers, roaring Ben Bella's name.

Ben Khedda also charged Wednesday night that the French planned to intervene. Convoys of French troops were on the highways in the vicinity of Algiers, but it was impossible to determine their aim or destination.

Talks Of Agrarian Reform

At a big outdoor meeting in Tiaret, Ben Bella said his first objective would be agrarian reform.

Ferhat Abbas, whom Ben Khedda succeeded as premier of the provisional government, endorsed Ben Bella "as a means of getting out of our difficulties."

—COMPROMISE UNIT ACTS—

Record Defense Plan Approved

Washington (UPI) — Senate and House negotiators agreed Wednesday night on a record-shattering $48.1 billion place time defense spending bill that hews closely to President Kennedy's requests.

The negotiators, meeting for 3 hours to reconcile bills passed earlier by both chambers, gave the administration $191 million it did not seek — and may not spend — to speed development of the controversial RS70 supersonic strike bomber.

They also voted money to keep the Army National Guard at a pay drill strength of 400,000. The Army Reserves were kept at 300,000. Defense Secretary Robert S. McNamara wanted to cut the guard-reserve to 642,000.

The negotiator's work must be ratified by House and Senate. Passage by both chambers seemed assured, perhaps this week.

The administration had asked only $171 million for further development of the RS70. To that total the House had added $52 million and the Senate an additional $320 million.

The compromise agreement providing $362.6 million will permit purchase of 6 rather than 3 test aircraft. The first supersonic bomber is scheduled to fly in December.

Last year Congress voted more than a half-billion dollars for the RS70 that was not spent.

Recommended language to keep the combined drill pay strength of the guard-reserves at 700,000 is not quite as inflexible as in the past 3 years.

It directs McNamara to program for 700,000 men by June 30, 1963, but only if the total can be reached by maintaining the personnel standards of the active army.

"In other words they can't recruit a whole lot of cooks they don't need," explained Rep. George Mahon, D-Tex., chairman of the House Defense Appropriations Subcommittee.

The money total of $48,136,000,000 is the biggest peacetime defense budget in history. It would provide roughly $200 million more than the President requested.

Omnibus Ag Bill Clears Senate Unit

Washington (UPI) — The Senate Agriculture Committee Wednesday cleared for floor action next week an omnibus farm bill including one of President Kennedy's two major new farm surplus control proposals — a stiff acreage reduction plan for wheat.

Democratic leaders talked of a floor fight to replace the committee bill with a measure including both the wheat plan and Kennedy's proposal for feed grain controls, aiming to salvage part of the package in an eventual House-Senate conference.

The committee action, however, raised the possibility that Democrats would soften or abandon efforts to revive the feed control program. One Democratic source, who asked not to be identified, said there might be considerable sentiment for passing the Senate committee bill without major change.

Year Extension

In addition to the Kennedy wheat plan, the committee bill includes a one-year extension of a 1962 program under which feed grain growers can earn government payments by voluntarily reducing acreage.

An omnibus farm bill approved by the House includes a modified extension of the voluntary feed grain plan plus a one-year extension of a wheat acreage cutting program — milder than the new Kennedy plan — in effect this year.

Both bills also include provisions for shifting surplus cropland into grass and trees on long-term contracts.

Efforts to revive the full Kennedy program in the Senate committee by substituting it for the House-passed bill failed when the committee voted to substitute, instead, its half-a-loaf measure.

Sen. John Sherman Cooper, R-Ky., meanwhile warned Democrats against trying to revive the feed grain program on the Senate floor. He said in a statement this could jeopardize chances for passage of any farm legislation.

Sen. William Proxmire, D-Wis., added in a Senate speech that farmers would not accept feed grain controls if Congress enacted them.

Narrow Vote

Before reporting the watered-down, House-approved measure to the floor, the committee narrowly voted down, 9 to 8, a move to substitute for it a version approved by the full Senate earlier this year and containing most of the stiff production control programs Kennedy requested.

Chairman Allen J. Ellender, D-La., who led the effort to revive the control bill, said he would renew that campaign on the floor. Democratic leaders already had predicted that he would succeed.

Ellender said the big threat to passage of feed grain controls might come in trying to work out a compromise in the House.

Access Route Pact Is Given Go Ahead

The State Highway Department Wednesday received a go signal from the U.S. Bureau of Public Roads to award a contract to the Stewart Construction Co. of Lincoln to build a vital link in the city's Interstate Highway access route.

Bureau approval of the Stewart bid, which was about 20% over the department's estimate, means Lincoln's access route now can go ahead according to schedule and should be completed by late 1963, barring unforeseen complications.

Bids which are more than 10% over estimates must be approved by the Bureau.

Only Bidder

Stewart was the only bidder on the project — both on the May 3 special letting (which was rejected), and again on June 28.

Deputy State Engineer G. C. Strobel said the Bureau concurred with the department that the bid of $618,780 was the "best we can do in present market conditions."

It was approximately $102,000 over the department's estimate for the project which includes grading, culverts and a haul road bridge over Oak Creek on a .3 of a mile segment between Salt Creek and the Burlington tracks.

Year to Settle

Delay of the project—because of the requirement that grading must have a year to settle — would have put the completion date in late 1964.

In an effort to get the project under way, the department had considered changing borrow pits to possibly reduce the cost, but the Bureau concurred that the "best chance to get the job done this year was to stay with the original way the job was set up," Strobel said.

State Engineer John Hossack said he was glad the problem is "resolved," adding that the department has been "real concerned about getting the project started."

Additional Travel

According to highway planners, he said, a year's delay in the project would have cost highway users $225,000 because of the additional travel required around the route.

"It's important to the users to get the job done as fast as we can and still get a good job done," Hossack said.

House OKs Equal Wage For Women

Washington (UPI) — The House Wednesday passed a bill to guarantee women equal wages for equal work after rewriting it to permit pay cuts for men in order to reach that goal.

The bill went to the Senate, where the appalled House sponsors hoped their original legislation to outlaw wage discrimination against women would be restored.

The bill was approved by voice vote.

Managers of the bill had vigorously opposed a series of Republican-sponsored amendments to the bill, charging they left gaping loopholes for violations and made enforcement all but impossible.

But most Republicans and many Southern Democrats backed the changes, which they said improved a poorly-drafted bill full of "sleepers."

As approved, the bill would require companies doing business across state lines and employing 25 or more persons to provide equal pay for equal jobs, regardless of sex.

The principal changes written on the House floor were the substitution of "equal" for "comparable" work and the elimination of a section that would have prohibited employers from lowering the pay of men in order to equalize the pay of women.

The members also decided to include themselves in the bill, adding a section that would apply the equal work-equal pay idea to their own offices.

Rep. Charles Goodell, R-N.Y., sponsor of the amendment cutting out the no-reduction section, said it restored flexibility to the legislation. He said the ban on pay cuts would result in the discharge of all the men or all the women in a plant, or the loss of everyone's job when the employer went bankrupt.

Opponents argued that elimination of the ban amounted to an invitation to employers to cut the pay of their men workers in order to comply with the equal wage requirement.

Rep. Herbert Zelenko, D-N.Y., sponsor of the measure, said the amendments would "gut the bill." He said the changes "leave nothing but the title."

WEATHER WILL REMAIN MILD

Nebraskans can look forward to more cool, mild weather.

For east and central Nebraska, skies will continue generally fair, with highs in the 80's. Panhandlers may expect a few late afternoon thundershowers, with highs Thursday from 80 to 90.

Lincoln recorded a low of 63 and a high of 78 Wednesday, while the state high was Scottsbluff's 84. Chadron's 49 was the low.

Flags To Return

Atlanta (UPI) — Two captured Georgia Confederate battle flags will be returned to this state July 27 by Indiana Gov. Matthew E. Welsh.

The Weather

LINCOLN: Fair and mild through Thursday, with highs from 80 to 85.

EAST AND CENTRAL NEBRASKA: Cooler and less humid with highs in the mid-80's.

Thompson, Nikita Have Useful Talk

Moscow (AP)—Premier Khrushchev and his wife Nina gave an unprecedented country house farewell party Wednesday for two of their favorite Americans—Ambassador and Mrs. Llewelyn Thompson.

They ate an 8-course terrace meal amid "interesting and useful talk," the ambassador said. Khrushchev told him to "go home and tell President Kennedy what I said."

Thompson, who leaves for home Friday, said his cabled report of the conversations should reach Washington Thursday. He said his talk with Khrushchev covered all important issues between the two countries.

Most Ever

In all, Thompson spent 5 hours during the day with Khrushchev—the most time the Soviet premier ever has lavished on a departing diplomat. It was the first time, too, that he has invited a departing ambassador and wife to a family lunch at his private dacha. Usually the premier entertains foreigners at a government house.

Thompson, who was U.S. ambassador here for 5 years, will be succeeded by Foy D. Kohler.

Mrs. Thompson, said the lunch "was delicious, all 8 courses of it."

Knowing she would have no time to change for an American embassy staff farewell dinner Wednesday night, Mrs. Thompson wore a Christian Dior grey and white silk organza dinner dress to the dacha, covering up its strapless top with a grey cashmere sweater. Rain forced them to eat on a covered terrace.

Waterlogged

"We looked around his garden," she said. "Yes, he does grow corn—but his is waterlogged this year, just like ours at Spasso House."

The star course was whole Kamchatka crab from the Bering Straits, each one two feet across. This was followed by quail shot in Siberia.

For the rest, "name it and you've got it," said the ambassador.

"We have a very free and easy relationship," the ambassador said of Khrushchev. "He scolds me and I scold him."

U.S. And Britain Agree On Plot To End Congo Strife

Geneva (UPI)—The United States and Britain have agreed on a combined effort to bring about a negotiated settlement in the strife-torn Congo, reliable sources said Wednesday.

The agreement was reached in talks here between U.S. State Secretary Dean Rusk and Britain's Lord Home, the sources said.

Both were reported in accord that the two sides in the Congo — Katanga leader Moise Tshombe and premier Cyrille Adoula of the Central Government — must reach a negotiated agreement.

Special Award

New York (UPI)—Cleveland Mayor Anthony Celebrezze, the new U.S. secretary of health, education and welfare, will receive a special award from the National Conference of Christians and Jews in September for his support of intergroup causes.

Bolivian Ambassador Lauds JFK's Action

By DON WALTON
Star Staff Writer

The Bolivian ambassador to the United States Wednesday praised President Kennedy's reaction to the week-old coup d'etat in Peru as "very constructive, if it remains consistent."

Kennedy swiftly suspended diplomatic relations with the Latin American republic and curbed Alliance for Progress aid to that nation.

"One of the dangers in Latin America is the military groups which normally are in 'cahoots' with semi-feudal landowners and rich people," Dr. Carlos Salamanca Figueroa told The Star.

Salamanca

The Peruvian coup was launched by the military.

Bolivia, Dr. Salamanca said, no longer must contend with this element since its 1952 revolution.

Dr. Salamanca, who is also Bolivia's ambassador to the United Nations, addressed a Latin American fiesta at the University of Nebraska Wednesday night.

In an interview over coffee, the tall Latin chided U.S. mining interests for "a lack of initiative" in failing to recognize the vast economic potential in Bolivia.

Great Potential

His nation, the second largest producer of tin in the world, has great potential in other minerals (including gold) which "has not yet been touched," Dr. Salamanca explained.

Oil companies have shown far more imagination in tapping new areas than mining firms, he declared.

It is in the area of private investment that the U.S. can realize a beneficial "economic reciprocity" with Latin America, the ambassador said.

Common Interest

"The best way to build friendship is to build a common interest," he noted. "The elements of economic reciprocity do exist."

Latin America, Dr. Salamanca pointed out, is the second largest U.S. trading area, a market which produces for the U.S. "a profit of $9 billion a year."

The U.S. might well apply to that vast market its domestic business slogan of "keeping your customer happy," he said.

Not The Answer

The Alliance for Progress is "not the answer to all the problems of Latin America," the ambassador noted. Again, he pointed to the necessity of private investment.

Dr. Salamanca also scolded the U.S. for its long-standing "negative attitude" toward South America, an attitude of "taking it for granted."

Castro, through "the shock treatment," made North Americans "more aware" of their sister southern republics, he noted.

Shelton Man Dies When Sports Car Leaves Highway

Blue Hill, Neb. (UPI) — Donald W. Dubbs, Shelton, Neb., was killed Wednesday when his sports car left a Highway 281 detour road 4 miles west of here.

Officers said Dubbs was alone in the car. It apparently missed a turn and ran up an embankment. Dubbs was crushed by the steering wheel.

The death raised the 1962 Nebraska highway toll to 179, compared with 177 on the same day last year.

Today's Chuckle

Among the many puzzling words in the English language is "economy," which means the large size in soap flakes and the small size in autos.

Alabama First State To Be Reapportioned By U.S. Court Order

Initial Shifting In Legislature In 61 Years

Mortgomery, Ala. (UPI)—A 3-judge panel Wednesday formalized a decree under which Alabama became the first state in the nation's history to be reapportioned by Federal Court order.

The official order redistricting the state's legislative seats differed little from an informal opinion rendered last Saturday, but it set in motion the first reshuffling of Alabama House and Senate seats in 61 years.

Wednesday's order was a direct result of the U.S. Supreme Court's now-famous March 26 ruling which held that Federal Courts had a right to hear redistricting suits when a state's Legislature failed to act.

Wisconsin, Too

Wisconsin is faced with a similar threat. A 3-judge federal panel has urged Gov. Gaylord Nelson to call a special session of the Legislature to deal with the reapportionment problem and has warned that the court will step in and remap the state itself it it detects any "foot-dragging."

However, a special master appointed by the court recommended Wednesday that the jurists refrain from forcing reapportionment of Wisconsin's legislative districts before the 1962 elections.

Alabama also had been given a chance to correct its own districting problem.

Judge Richard Rives of the Fifth Circuit Court of Appeals and District Judges Frank M. Johnson Jr., of Montgomery and Daniel Thomas of Mobile signed Wednesday's order.

The decree enjoins Secretary of State Bettye Frink, Atty. Gen. MacDonald Gallion, State Democratic Chairman Roy Mayhall, State Republican Chairman John Grenier, other political party officers and probate judges in the state's 67 counties from interfering in any way with the court plan to give the more populous counties a stronger voice in the Legislature.

The 3 jurists said residents of Alabama were denied equal protection of the law under the 14th Amendment by refusal of the state Legislature to reapportion itself since 1901 although required to do so by the state Constitution every 10 years. The panel said this failure resulted in widespread "invidious discrimination."

Gov. John Patterson already has agreed to abide by the historic decision which the judges said was only a "short step in the right direction."

Gering Trucker Fined $1,100

Omaha (AP)—Chief Federal District Judge Richard E. Robinson fined Theodore G. Pappas, Gering trucker, $1,100 on 11 counts of violating rules of the Interstate Commerce Commission.

The judge suspended execution of $600 of the fines.

The government charged that Pappas failed to have his drivers keep proper road trip logs and permitted them to drive in excess of the legally permitted hours.

Problem Left Where They Found It—

Rusk And Gromyko Part Without Berlin Solution

Geneva (AP)—Dean Rusk and Andrei Gromyko are leaving the Berlin problem essentially where they found it at the outset of their Geneva negotiations, informed sources said Wednesday. Nothing happened to create either a solution or a new crisis.

Positions of the U.S. secretary of state and the Soviet foreign minister, who conferred 3 times on Berlin in the past 5 days, were termed basically unchanged as Rusk took off for Washington and Gromyko arranged to head back to Moscow Thursday.

But each side ended with a definite recognition of the other's commitments in Berlin and an understanding that serious consequences could result if these are infringed.

Still Talk Of Signing

This would apply among other things, to the Russians' long-professed intention to sign a separate peace treaty with communist East Germany and turn over to East Germans the control of West Berlin's supply lines across more than 100 miles of communist territory.

It was not clear whether the Russians will continue their pressure for such an arrangement.

Informed sources said there is reason to believe that if the Russians do sign a treaty with East Germany, it will be done in such a way as not to interfere with the vital interests of the West in West Berlin.

Rusk accomplished one aim in his conversations with Gromyko. He spelled out clearly the United States' position and its determination to defend its war-won rights in Berlin.

The talks were described by informed sources as clear and precise, without bluster or extravagant language.

DOPE SNIFFING POLICE POOCH IGNORES 'DOGS'

St. Louis (AP)—Duke, ace marijuana sniffer of the police department's canine corps, by-passed 10 pounds of tempting frankfurters Tuesday night in locating eight packages of the drug.

The dog pawed aside the frankfurters and found the marijuana at the bottom of a carton in a refrigerator at a restaurant. Police said the frankfurters apparently were put there to throw Duke off the trail.

Leonard Cooley, operator of the restaurant, was booked suspected of possessing marijuana

Spain To Cease Its Press Control

Madrid (UPI) — After 26 years of government control of the press, censorship may be abolished in Spain next December, reliable sources reported Wednesday night.

It is believed abolition of censorship will be one of the main points in a new information bill, now under consideration. The legislation is expected to be put before the parliament in a plenary session.

The bill, regulating all affairs connected with publications from periodicals to books, would replace an emergency press law enacted during the Spanish Civil War in 1938 and never rescinded.

Back Going To Jail

Jackson, Miss. (UPI)—The Jackson Daily News reported that a poll of its readers showed 1,476 of them favored elected officials going to jail, if necessary, to preserve segregation. Ninety-one readers opposed the idea.

Brooklyn Hospital Is Evacuated

Fire Quickly Put Under Control

New York (AP) — A hospital fire Wednesday caused a dramatic, mass evacuation of patients — on stretchers, in wheelchairs or walking. There were moments of heroism. Doctors completed one major operation, virtually in the face of the flames.

The only injuries, described as minor, were to two firemen. The blaze swept an upper loft and part of the roof of St. Mary's Hospital, a rambling, 5-story structure in Brooklyn. Some top-floor wards were damaged.

All 199 patients, the young and old, sick and lame, mothers and new-born infants, were removed temporarily to a lawn outside as 200 firemen fought the fire. It was brought under control within half an hour.

One Woman In Childbirth

One woman, in the process of childbirth in a top-floor delivery room, was taken downstairs as her labor continued.

Nuns, nurses and other staff members were praised for their swift, calm efficiency in carrying out the large-scale evacuation. One physician, Dr. Harry Davoli, formed a bucket brigade to try to stem the fire at the outset.

It was a tense interval in a fifth-floor operating room. There, with flames only 200 feet away, surgeons were in the midst of a 4-hour gastrectomy to remove part of the stomach of a 54-year-old patient. A half hour of work still was to be done.

Dr. Daniel Panganiban, three assistants, and two nurses stuck to their task, the life of the patient depending on completion of the operation, while 20 firemen poured streams of water against the flames to hold them back. But the process was completed successfully.

Are You Jovial? Beware Of Booze

Belfast, Northern Ireland (AP) —Are you jovial, cheerful, and a good mixer?

Then take care — you're more likely to become an alcoholic than the reserved, tactiturn type, a British doctor says.

"The jocular fellow is more prone to alcohol addiction because his habits take him more often to parties and bars," said Dr. David Davies, dean of the Institute of Psychiatry at London University. He spoke at the annual congress of the British Medical Association.

Lemnitzer Is NATO Chief

Paris (AP)—Gen. Lyman L. Lemnitzer was approved unanimously by the Atlantic Alliance Wednesday to succeed Gen. Lauris Norstad as supreme allied commander in Europe.

Tne name of the returning chairman of the U.S. Joint Chiefs of Staff was placed in nomination by President Kennedy and endorsed at a special meeting of the North Atlantic Treaty Organization's Permanent Council.

Norstad resigned Saturday as the European chief of the 15-nation alliance, effective about Nov. 1.

There was no opposition to Lemnitzer, but his selection may have been slightly delayed by France. The French Cabinet only Wednesday approved the nomination. President de Gaulle has been represented as annoyed at the haste with which he thought Washington was trying to put through the appointment.

Big Task Ahead

Perugia, Italy (AP)—Egyptian Prof. Hassan Osman has come here from Cairo on his mission to translate Dante's "Divine Comedy" into Arabic. He already has published an Arabic translation of the "Inferno," first of the comedy's three parts.

Tersely Told Tales

Washington (AP) —President Kennedy sent to the Senate Wednesday the nomination of Gen. Maxwell D. Taylor to be chairman of the Joint Chiefs of Staff for a two-year term beginning Oct. 1.

At the same time, Kennedy nominated Gen. Earle G. Wheeler for a two-year term as Army chief of staff.

Dar-Es-Salaam, Tanganyika (UPI) — John Mwankangale, Tanganyikan political leader who accused the U.S. Peace Corps of subversion in a recent parliamentary speech, resigned as commissioner of Tanganyika's southern highlands.

REFUGEES TAKE TO THE SEA . . .

Hong Kong Faces Crisis As Red Chinese Pour In

Hong Kong (AP) — Government officials warned Wednesday that a steadily increasing flow of seaborne refugees from Red China is presenting this overcrowded British colony a new major crisis.

They estimated the human flow by sea has tripled in the last 6 months to more than 300 a day, or 10,000 a month.

"The problem is more critical than the mass exodus of last May," one top official said.

The government has cracked down with stiff jail sentences for some refugee smugglers. It is considering the destruction of junks and other vessels used in the thriving smuggling trade.

Thousands Sent Back

Close to 100,000 refugees from food-short communist China stormed barbed wire barricades to seek asylum in Hong Kong in the mass exodus last May. But about 65,000 of these were intercepted by Hong Kong police and British troops, in many cases under heart-breaking circumstances, and sent back.

"The May exodus presented us a physically and emotionally exhausting problem," a police official here said. "But most of it was overland and, by straining all our resources, we could deal with it. Our present problem is far more difficult."

Practically all the illegal immigration from Red China now is over water and nearly all of it at night. The refugees are smuggled — at rates ranging from $3 to $100 (U.S.) per fugitive — in junks and other vessels that mingle with the thousands of fishing craft dotting the waters separating Hong Kong and Red China.

Killer Commando Squad Members Escape Execution

Paris (UPI) —The special military tribunal set up to try Secret Army Organization (OAS) agents withheld the death sentence in the case of 8 members of an Algiers "killer commando" squad.

The tribunal at the end of a 3-day hearing, sentenced 5 defendants to life imprisonment, one to 5 years and two others to a suspended one-year jail term.

All eight were found guilty of having taken part in the "Delta" group which led the OAS terror wave.

Wagensen's 'Horse Or Something' Almost Parade In Itself For Ruskin

By DEAN TERRILL
Southeast Nebraska Bureau

Ruskin — Cathryn Jensen's invitation to come back for this town's diamond jubilee wound up with a suggestion "to bring along a horse or something for the sake of your old dad."

What Wyoming rancher Fred Wagensen brought would indeed have pleased Father Jens — and would have overflowed the Ruskin oldtimer's livery stable. The "horse or something" entered in the 75th anniversary parade was practically a parade itself:

Nine riding horses, a team of buggy-pulling Shetlands, a large stock truck, pickup truck, two ranch hands, and 3 generations of the late liveryman's offspring.

Proudest product brought from the Raw Hide Ranch were the 66-year-old Wagensen's 7 grandchildren — and it was these he really wanted to show off for the old hometown.

"Wanted them to see Nebraska, too," the former state representative explained. "Miss Jensen left for Europe, turning her house over to us for the celebration, so it was a fine opportunity for a visit."

Left In 1916

Fred Wagensen had left Ruskin in 1916 to homestead near Gillette, Wyo., but his father had been among the many Danish immigrants who made Ruskin (pop. 203) boom in its heyday. A jubilee history compiled by Mrs. Gertrude Skinner related how this area's first 5 homesteaders were all Danish — brothers Wilhelm and Nis Riber, brothers Lars and Chris Jespersen and N. C. Andersen.

"Old Wilhelm was the last of the 5, dying 21 years ago at the age of 99," recalled Mrs. Skinner. "A year before his death he was decorated as a Danish 'Knight of Danebrog.' That won him even more fame than his memorable 65-mile walk to get a marriage license."

Ruskin's biggest parade ever—and its first since 1915—was repeated Wednesday afternoon after a half-dozen neighboring communities swelled first day entries to 90.

"It couldn't have been done without good co-operation from the whole countryside," beamed George Jensen, volunteer fire chief who spearheaded the 2-day observance.

Even Gov. Frank Morrison dropped in for a first day surprise, and ended up fronting the parade on horseback. Besides the twin parades, another festival highlight was an historic pageant written some 30 years ago by Mrs. Mabel Magee and updated by Mrs. Carol Jeppesen and her 20-member local cast.

Other activities ranged from an oldtimer's ballgame (Sunday) to a square dance, chicken barbecue, free acts and group singfests.

'Overlooked 50th Year'

"There's no doubt this is our biggest celebration in history," noted Frances Hansen, veteran editor of the Ruskin Leader, "especially since we sort of overlooked our 50th anniversary."

Not that even this blowout couldn't have been bigger, but 625 miles was too far for the Wagensens to herd some 1,500 head of cattle, 2,000 head of sheep and a couple hundred buffalo.

'Wild West Show' May Ride Again

Ogallala — Buffalo Bill's "Wild West Show" riders will ride again, is the hope of the Nebraska Game Commission.

Game Commission Director Mel Steen, speaking here, said the Cody family has films of the original shows and it is hoped that authentic replicas of the famed show can be staged at North Platte, home of the American rodeo.

Steen noted that there are plenty of Indians, buffalo, horses and riders available.

Tractor Kills 43-Year-Old

Liberty (AP)—Raymond (Ted) Craig, 43, of Liberty, was injured fatally Wednesday when a tractor he was operating caught fire and exploded.

The accident occurred on his father's farm, 5 miles southwest of Liberty.

Sheriff's deputies were told his parents, Mr. and Mrs. Clayton Craig, left the farm for about 30 minutes and returning did not find their son, a cripple, at the house.

Mr. Craig investigated and found his son under the overturned tractor. Deputies were told the older man attempted to free his son, but the tractor caught fire and an explosion followed. The father suffered slight burns.

Price Supports For Wheat Increase

Wheat price support rates in Nebraska counties this year will range from $1.90 to $2.10 per bushel, the State Agricultural Stabilization and Conservation Service office reported Wednesday.

The range of these loan and purchase agreement rates among the counties compares with $1.71 to $1.91 last year and reflects the increase in the national average support price this year, an ASCS official said.

County-by-county price support figures also were disclosed for 1962 grain sorghums, barley, oats and rye.

Rates generally run at lower levels in western counties, higher levels in eastern counties as the result of differences in freight costs to terminal markets.

Grain sorghum rates range from $1.75 to $1.96 per bushel unchanged from last year except for adjustments in Platte and Colfax counties where the support rate was raised one cent.

Barley rates range from 81 to 99 cents a bushel, compared with 84 cents to $1.01 last year.

Oats price supports remain unchanged from last year at 59 to 63 cents a bushel.

And rye support prices range from 86 cents to $1.05, a uniform two cent a bushel drop from last year in all counties except Colfax.

The prices are those at which rate the federal government will lend money to farmers on their grains.

Wheat price support rates for individual counties include:

$1.90: Sioux, Banner, Kimball.
$1.91: Scotts Bluff, Dawes, Cheyenne.
$1.93: Morrill, Sheridan, Deuel.
$1.94: Garden, Box Butte.
$1.95: Grant, Arthur, Keith, Perkins, Chase, Dundy.
$1.96: Hayes.
$1.97: Cherry, Hooker, Hitchcock.
$1.98: Lincoln.
$1.99: Thomas, McPherson, Logan, Frontier, Red Willow, Blaine, Brown, Keya Paha.
$2.00: Rock, Furnas.
$2.01: Custer, Gosper, Harlan.
$2.02: Boyd, Loup, Dawson, Phelps, Kearney, Franklin.
$2.03: Holt, Knox, Garfield, Valley, Webster.
$2.04: Sherman, Buffalo, Adams, Clay, Nuckolls, Cedar.
$2.05: Antelope, Wayne, Greeley, Howard, Hall.
$2.06: Pierce, Madison, Boone, Wheeler, Dixon, Hamilton, Fillmore, Thayer, Jefferson.
$2.07: Dakota, Stanton, Nance, York, Pawnee, Richardson.
$2.08: Thurston, Platte, Polk, Saline, Gage, Johnson, Nemaha.
$2.09: Seward, Cuming.
$2.10: Burt, Washington, Douglas, Dodge, Colfax, Saunders, Sarpy, Butler, Lancaster, Cass, Otoe.

The prices are based on U.S. No. 1 wheat meeting sanitation requirements.

The period for loans and purchase agreements on 1962 wheat ends Jan. 31, 1963.

Support rates on 1962 grain sorghums in representative counties:

Box Butte $1.75	Douglas $1.96
Gage $1.92	Scotts Bluff $1.75
Custer $1.75	Cheyenne $1.75
Dawson $1.76	Dawes $1.75

4-H Fair, Horseplay Days Set At Falls City

Falls City (UPI) — The combined 4-H Fair and Horseplay Days will be held here Aug. 6-8.

Free horse shows will be featured the first two nights with the Shamrocks, a brother and sister specialty team, appearing on the rodeo circuit.

Poor Wheat Harvest Hits 'Screeching Halt'

By the Associated Press

The poorest wheat harvest in years in Cheyenne County came to what one observer called a "screeching halt" as rain this week covered the area.

They came on the heels of 3 days of warm, dry weather which had permitted the combines to go full blast through the ripened fields.

The overall county yield average, in the neighborhood of 30 bushels to the acre last year, has been sliced at least one third, an elevator official said.

Wheat the hail didn't beat down was damaged by stem rust.

Community average estimates ranged from 15 to 25 bushels per acre. In general, elevator men said, the average quality is no better than No. 3, around 56 pounds in weight.

An area-by-area report included:

Lodgepole — H. W. Quinn, manger of the Farmers Elevator, estimated the harvest 80% completed. The crop will average 22-25 bushels per acre, he said, and will be about No. 3 wheat, running 56 pounds.

Lorenzo — Harvesting is about 75% complete. Wheat is running "fair" with yields 15-18 bushels. Elevator men described the rust damage as "tremendous."

Dalton—Harvest about 95% complete. Yields are difficult to determine due to the loss through hail. Wheat brought in has run from 7 bushels to the acre as high as 30.

Sidney — Harvest nearly complete. Warren Mettlen, manager of the Farmers Grain Elevator, estimated wheat running 18 bushels per acre and averaging about 53 pounds.

Potter — Harvest about 90% complete. Bruce Juelfs of Juelfs Grain Co. estimated the grain may yield about 23 bushels per acre and was averaging about No. 3 in weight.

Alliance—Harvest in southern Box Butte County about 90% completed. Yields at Alliance elevators range from a peak of 40 bushels down to a little as 3 bushels per acre. Last Thursday's hail storm cut the average severely in areas where the wheat had not been cut. Rust also cut into the average.

Nebraska News

Judges Asked To Refuse Railroad Abandonment

Omaha (AP) — An attorney for the Creston Grain and Lumber Co. Inc., asked 3 federal judges Wednesday to refuse the North Western Railway permission to abandon service between Scribner and Oakdale.

Warren K. Dalton charged that those using the railroad to ship grain in that section of the state had not been given an opportunity to prove they could ship enough to make it profitable for the railroad.

Dalton claimed that in recent years the service had become so spotty that the shippers could not make plans to ship their products.

In October, a 3-judge court denied a request to stop the railroad from tearing up the 77 miles of track from Scribner to Newman Grove. The Interstate Commerce Commission has ruled North Western can abandon service along that stretch.

391 Complete 4-H Camping Season

Three hundred and 91 4-H club members from northern Nebraska counties have completed the 4-H camping season at Niobrara State Park.

Counties represented in the 4 camps were Holt, Boyd, Stanton, Cedar, Pierce, Madison, Boone, Antelope and Knox.

Imperial Editor J. C. Naylor Dies

Imperial (UPI)—J. C. Naylor, 88, editor and publisher of the Imperial Republican for the past 21 years, died Wednesday.

Mr. Naylor, who had published various Nebraska newspapers during the past 47 years, began his journalistic career at Callaway.

Funeral services are to be held at Callaway.

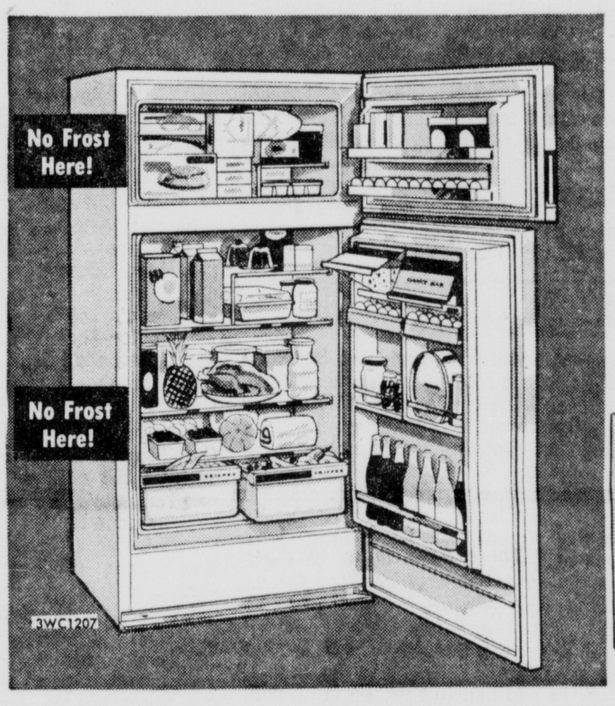

He is survived by his wife, one daughter, and two grandchildren.

Second Vaccine Day

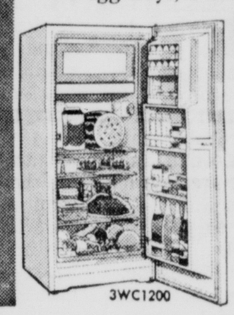

Ogallala — The second Sabin oral vaccine immunization program will be held here Saturday. The clinic will be held at the Ogallala High School auditorium from 11 a.m. until 7 p.m.

City Budget In Shape

By WILLIAM O. DOBLER

With summer slipping by, the dormant cycle of life is approaching. This is the climactic part of that life, when most things are in their full bloom and not yet ready to succumb to the ravages of a more adverse climate. It is the time, too, when governments hit a peak, when they fix the funds that will be needed for the coming 12 months. This is the job that has been occupying the City Council for the past few weeks and it is a major one.

Certainly, it is the climax for the City Council because it is that which is done by way of the budget that determines much of the future course of the city. And the course for the coming year looks like a favorable one. Once again, the council has found itself in an enviable position. It has not often been this way. A few years ago when the council set out to make a budget, it was a gloomy affair. The budget process itself was not as streamlined as it is today and the effort took a great deal more time. But more important, councils of years gone by faced a much more difficult job financially.

Good Year Ahead

This year, the city appears headed toward appropriation of even more money than was in the original departmental requests. And this will be accomplished within practically the same mill levy that we now have, possibly a one-third mill or so increase. Certainly, even a full mill increase would be most modest in view of the trend of government these days.

This does not mean that Lincoln is on easy street. The fact is that the budget which now appears in the making could be substantially increased in many areas and done so constructively. Another mill or two could be used without a nickel's worth of waste. But the budget shows substantial progress as it is along with proper restraint on the part of the council.

★

It is up to the mayor and council and department heads to steer a course for the city that is progressive but not oppressive. This is not an easy thing to do. Once in city government, there is a strong urge to move boldly forward. The urge is not predicted on any desire just to spend money but rather, to make Lincoln the best community possible. But this natural enthusiasm must be tempered with a realization that the taxpayers have a limit to that which they can or are willing to spend on public improvements and services. The government of Lincoln must operate just as any individual—as well as it can for the least amount of money. This means it must sift essentials from mere preferences and arrive at a correct balance of needs and abilities to pay.

It has appeared to do a good job of this for the 1962-63 fiscal year. More than $41,000 has been added to the total amount requested by the various departments for the new year's operation. The increase plus the original requests will give the city many improved services. We find, for instance, a $10,000 appropriation for a tax study toward the idea of city-county consolidation. The appropriation is rather small for that job but it may be sufficient and demonstrates a willingness to attempt to solve this knotty problem. The consolidation question has been kicked around far too long already and it is well past time that all facts relative to such a step are gathered together.

★

We find, also, in the budget a list of improvements within the park system totaling nearly $600,000. A few years ago such a program would have been unheard of. This program calls for only $238,209 in city tax funds. Also utilized will be $50,000 from the land acquisition fund, $77,000 from a state payment for damages to Oak Creek Park and $228,000 from a bond issue.

The bond issue will be used to provide funds for construction of a new swimming pool in Woods Park at 33rd and O. A private gift may be realized to give the bond program the final help it needs to be launched. In this same park program is $40,000 for the acquisition of more land along the No. 10th St. access route for Lincoln to the Interstate Highway.

And in this program, too, is $282,000 for the development of Holmes Park at 56th and Pioneers, the site of the new Antelope Creek Dam. This money will provide roads, boat dock, shelters, golf course and other facilities at this new city park. This will be a major asset of long lasting value for the city. There will be more funds next year for street lighting, for more fire, police and park personnel, for a new wildlife sanctuary in Pioneers Park, for an improved street department operation, for a better traffic movement program and a host of other items. All of this gives promise of an encouraging general fund budget operation for the approaching year.

Plans In Detail

It is hoped that the citizens of Lincoln keep in mind the efficient progress the city has made when they are called upon to support special projects such as sewer improvements, water improvements, etc. The City Council has done a commendable job and one which merits it the support and confidence of the public.

Steen Right On Promotion

State Game Commission Director Mel Steen is absolutely right in his analysis of the question of promotion of tourism in Nebraska. Efforts to transfer the promotional activity to the Department of Agriculture make little sense and would be a costly and backward step. In that department the promotion would probably fall directly under the resources division and it would likely die a slow death there.

The situation is exactly as Steen described it to be. Tourism has to do with hunting, fishing, camping, parks, history, etc.—all things which fall under the Game, Forestation and Parks Commission. Tourism is not the same as industrial promotion and certainly hasn't a thing to do with agriculture. Putting promotion of tourism under the ag department is like trying to mix oil and water.

On top of that, Steen is by far and away the best if not the only man in state government qualified enough and dedicated enough to do the kind of job we need done. Agricultural Director Pearle Finigan is a great agricultural director but he isn't qualified and probably would not make a good promoter of tourism. And we doubt very much that he wants the job.

If Nebraska is ever going to make a go of this tourist business, it would be wise to listen to Steen. He has been the backbone and the inspiration for practically everything that has so far been accomplished in this area. It is a matter in which he is vitally interested, in which he has great confidence and in which he is well qualified. In addition to this, he is already on the job which means no additional funds for a new promotion agency or department. Tourist promotion would be deemphasized, not stimulated, by any such transfer of its responsibilities as has been suggested.

A Good Scheme

The simplified difference between Russian and American education lies in the fact that the Russians educate to satisfy the needs of the state. In America discretion remains with the student. He can count on a balanced fare of cultural education with specialization available when the time comes.

That difference renders close comparison difficult. The aim of Russian education can vary every few years. It is something like trying to compare a cruising airplane with a galloping rabbit.

But now and then there are Russian innovations which are both interesting and applicable to our use. Currently Russia needs more engineers and physicists. In view of that the Siberian University of Novosibirsk is on a recruiting mission. It has prepared several mathematical problems and has supplied them to all the lower schools, inviting interested students to solve the problems and mail them back to the university. The problems are of a character to reveal whether the student has an aptitude for mathematics, accompanied by satisfactory reasoning power.

Students selected by their voluntary examination are transported to the university, screened and then subjected to a series of further examinations. In the end the university is able to fill its beginning classes with selected material and scholarships are granted on that basis.

This is something the American colleges could copy, not only for physics and engineering, but for any other field where a need exists. It is an efficient way to disburse scholarships and would not interfere with the American principles of student discretion and general liberal education.

A Time For Review

Rachel Carson is an eminent marine biologist who has twice enriched the world's fund of knowledge by publishing absorbing books. One is "The Sea Around Us." The other is "The Edge of the Sea." Many Americans are now familiar with their contents.

Recently the New York magazine published excerpts of the latest Carson book, rather long excerpts running as a series in three of the magazines issues. The book when completed will be "Silent Spring."

This book will stir up strong feelings. It is an attack on the unbridled use of recent wonder chemicals used to kill insects—pesticides they are called. Among the villains are DDT, dieldrin and malathion. Miss Carson's charge is that these hydrocarbons not only kill insects, but almost everything else, too, and since some of them do not dissipate, but perhaps even increase their strength, they live on to contaminate food, fiber and milk and may one day have serious effects on human life. What Miss Carson is more afraid of is that they will so badly upset nature's balance that a form of national suicide will ensue.

It would be an ironic thing if after this sophisticated nation has achieved armament security against hostile human beings it should come to its end because it started a chain reaction against insects that proceeded on through birds and plants and animals until nature simply stripped its gears.

The book is a partisan presentation and invites rebuttal. But it is a timely proposal of subject that ought to be explored. It touches on an uneasy feeling held by so many, a feeling that this rush into new and dramatic fields is being carried on without due reflection. There has been too much double talk on radiation, wonder drugs and their side effects, and magic insecticides. It is time someone knew something for certain.

Hits Public Till For Baby Sitter

WASHINGTON — If you want a baby sitter for your second wife's children, get elected to Congress. That seems to be the creed of Rep. T. Ashton Thompson, the Dixiecrat from Ville Platte, La.

For more than a year and a half, Thompson has paid Mrs. Judith Billeaud Coreil a salary of $231 a month of the taxpayers' money supposedly to work in his office and look after the problems of his constituents.

However, careful inquiry disclosed that Mrs. Coreil doesn't work in the congressman's office, and has never been in his office, and as a matter of fact isn't even in Washington.

Inquiry disclosed that her salary checks are mailed by the House disbursing office every month to the congressman's office, and in Washington—but she is not there. Perhaps this is so that the whereabouts of the lady will not be too readily known.

For the truth is that Mrs. Coreil spends her time taking care of the children of the congressman's second wife back home in Louisiana. Mrs. Coreil is the sister-in-law of the sheriff of Evangeline parish, and its also helps to have the kinfolk of a local leader on the payroll.

This ignores the fact that the payroll is put up by all the taxpayers in order to help a congressman run his office, not to pay baby sitters.

☆ ☆ ☆

On the same day the Senate turned down the Medicare bill, the Federal Trade Commission filed a complaint against a group of doctors and hospitals in Kansas City, which, if brought earlier, might have changed the Senate vote.

For the Federal Trade Commission, after exhaustive study, accused the doctors of doing what the AMA has charged the federal government with wanting to do under the medical care bill—namely, monopolizing medical and hospital practice.

What the Kansas City doctors did, according to the formal charge of the FTC, was to restrict free enterprise in supplying blood to Kansas and Missouri hospitals.

If you were a patient at one of these hospitals, you had to buy blood from the blood bank operated by the doctors and the hospitals. You couldn't get it outside.

This gave the doctors a monopoly. A patient on the operating table doesn't argue about where he gets his blood, even if it costs him more, and the FTC charges that 26 pathologists who handle the transfusion and testing of blood are in the driver's seat as far as buying blood in the Kansas City area is concerned. According to the official FTC charge "the medical doctors responsible for the care of patients at the hospital rely on the pathologists in securing this blood supply, as do the administrative officials of the hospital."

And the pathologists with the connivance of certain hospitals operated their own Community Blood Bank, barring blood from two free enterprise blood banks—the Midwest and World blood banks.

BOB CONSIDINE

Lloyds Will Bet With Or Against

LONDON — Dropped by Lloyds of London today for a talk with a big, ruddy underwriter named Anthony Grover, and came away with a much clearer knowledge of the remarkable organization whose members have insured the world against practically every known calamity, including catastrophes suffered while doing the Twist.

Dietrich's legs, Durante's nose, Paderewski's hands, Callas's voice and such formidable objects as the Titanic and the love barge used in "Cleopatra" have done business with Lloyds, which derives its name and many of its practices from the origin of the plan in 1688 in "Lloyds Coffee House" in Tower Street.

But most of the policyholders are not very glamorous. For every glamorous item there's a cheese plant in Ipswich.

Mr. Grover first set us straight on what Lloyds is not. It's not an insurance company. It's a market in which individuals, known as underwriters, accept insurance from accredited brokers. The underwriters, so-called because when they form themselves into a syndicate to issue and guarantee a large risk they write their names one under the other, now number more than 5,000. They have formed 300 syndicates, each of these specializing in this or that type of insurance.

Some 200 brokers who, in turn, have connections all over the world, bring the business to Lloyds.

☆ ☆ ☆

In recent years, nonmarine business has gone ahead of marine insurance for the first time. A leading item of interest on the bulletin board the other day, for example, was a brief announcement, typed in large print on blue paper because it had to do with aviation, that a Comet-4 of the United Arab Republic Airways, Flight MS-869, due in Bangkok from Hong Kong on July 19, had crashed 62 miles short of the airstrip. "No sign of life," the announcement concluded.

"That means the payment by a Lloyd's syndicate for the aircraft alone of about $3,000,000, I'd say," Mr. Grover mused. "Your Boeing and Douglas jets cost someone or some group here about $5,500,000 if they crash. The premium runs about $140,000 a year."

Lloyds started with Tower Street merchants and bankers insuring ships and cargoes, many headed for the New World. Today it is a marvel of efficiency, considering the fact that it is still basically a gambling place. Its premium income last year approached the billion dollar mark. It will take a chance on anything it feels is assessible, including weather insurance on big outdoor sports events. It has already issued what amounts to insurance for voyagers into space.

JOSEPH G. MOLNER, M.D.

To Your Good Health

Dear Dr. Molner: Our 5-year-old son has asthma. Does climate have anything to do with this? We live where the humidity is high most of the time. How much do emotions have to do with asthma? Are there many people who have abdominal cramps when they have an attack?—MRS. D.W.

Dr. Molner

A dry climate may—may, I repeat—help an asthma case, but it is by no means certain, and I would not think of moving without doing two things first: try the known methods of easing it; and try a different climate on a temporary basis before doing anything as drastic as uprooting a family — job, friends and all.

Opinions vary on the importance of emotions in asthma. I doubt that a general rule is possible.

I have never observed an asthma case in a child in which allergy was not a basic factor.

After all, what is asthma? A constriction of the air passages. Allergy, one of the commonest of all human ailments, has varied manifestations: rash, itching, sneezing, swelling, cramps, vomiting; effects on eyes, nose, digestion, respiratory passages. Too often people still think some single medicine will "cure" asthma. What needs curing — well, you don't "cure" it but you may control it—is the allergy.

It can be something breathed: house dust, pollen, animal danders and many other things. Skin tests are helpful in identifying these.

Foods can do it—and skin tests are not as definite in this regard. Eggs, wheat and milk are relatively common offenders, and all are usual ingredients in a child's diet.

However, abdominal cramps along with asthma attacks are a strong hint that food allergy may be present. (No, not all asthma sufferers have such cramps).

It is possible for a germ (as from chronically infected tonsils or sinuses) to be the "substance" that touches off allergy attacks.

It is notable that some youngsters, asthmatic at first, outgrow the trouble, but the more severe the case, the less chance of doing this completely. For a rule of thumb, the case that is outgrown by about age 12 is fortunate; asthma that continues later is something that will have to be fought constantly.

If you can find out what things touch off the allergy, then you have a tremendously valuable and fundamental fact to work with. A "food diary," from which you can check back to see what foods always precede an attack (and in today's case the abdominal cramps) can be most valuable.

☆ ☆ ☆

Dear Dr. Molner: I read that two parents with Type O blood can have a child with Type A blood. I always thought Type O was a recessive blood group. I wonder if there was an error—K.S., age 15.

How right you are.

Here is a correct list of the blood groups possible in children from various combinations of the parents' types:

O plus O must be O in the child.
O plus A can be O or A.
A plus A can be O or A.
O plus B can be O or B.
B plus B can be O or B.
A plus B can be any type—O, A, B or AB.
O plus AB can be A or B.
Other possible combinations (A plus AB, B plus AB, or AB plus AB) can produce children of any type except O—that is, they may be A, B or AB.

☆ ☆ ☆

Dear Dr. Molner: I have been told that if we don't hear air escape when we open canned goods, the contents aren't any good. I try not to buy cans with dents. I would like your opinion.—MRS. E.S.

Be careful of dented cans. And especially, look out for bulging ones, because this means that fermentation has been building up pressure inside. Such cans will "fizz," and some will squirt contents all over the place. Food from these should not be eaten.

Otherwise, you are entirely safe. Virtually all of our trouble in this area is the result of home canning—people are not (or sometimes cannot be) as careful as is necessary.

☆ ☆ ☆

Dear Dr. Molner: I have read that cabbage juice is recommended for ulcers. How is it taken and what does it do?—MRS. C.D.

This idea was proposed several years ago. A research project gave some indication that extract of cabbage juice might help heal ulcers. There hasn't been any confirmation of this, so far as I can learn—and in any event, many tons of cabbage are required to produce a little of the extract. So forget it for now; just stick to the known methods of treating ulcers and don't waste time hoping for some wondrous "cure" that will work overnight.

Dr. Molner welcomes all readers mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Copyright, 1962, Field Enterprises, Inc.

Your Four Cents Worth

Brevity in letters is requested, but length in itself will have no bearing on publication. Writers are advised that needless details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials only at the editor's discretion.

Late Publicity

Lincoln, Neb.

There are several interesting elements relating to the meeting on June 22 with Fred Seaton, Republican candidate for governor.

In the first place, the luncheon was co-hosted by former Governor Robert Crosby and Thomas Pansing, who are closely identified with the Seaton campaign. Would it not be quite probable that most of the 20 or more people whom they invited would be likely supporters of their candidate? Then what is remarkable about a meeting called for the purpose of increasing support for Seaton?

The only statement of Seaton's which is quoted pertains to the University of Nebraska. Mr. Seaton is reported to have stated and repeated: "If the university people can convice me that their requests are valid, I will carry on the fight to the Legislature."

I am sure that Governor Morrison, too, if convinced that the requests of the university are valid, will most certainly carry on the fight in the Legislature.

Is it not interesting that not until a month after this meeting is there publicity about it, and then the publicity is released by a man who was not present?

LUCILLE WHITE

Algerian Aid

Auburn, Neb.

On July 17, the American Friends Service Committee offered a plea for aid for Algeria, stating that the French government and the Algerian transitional government had asked them to help.

Algeria was handed its independence on July 3, has been recognized as such by France and other nations. It is on its own but no stable government has been established, and there is a growing rift among Algeria's victorious leaders which could lead to rebel movements which might easily go on for years. Such has been the case of Ireland which has had 40 years of guerrilla fighting since its independence.

The Algerians who have been armed, financed and trained by the communist powers, including Red China, surely will remain in a neutral status for no more than a graceful interval and in no time at all we can expect to see Russian missile and submarine bases in Algeria.

I would resent the American Friends Service Committee distributing aid anywhere in any country in the name of the United States, as it would lower our prestige and they do not represent the average American. They are for disarmament while communist bloc nations are arming and increasing military training and also are for world law.

MRS. A. VANDERFORD

☆ ☆ ☆

Small Town Lure

Lincoln, Neb.

The Saturday, July 21 column, "Life Begins At Forty," really made me homesick, reading about small towns where one can have his own garden. Each person knows everyone else. Large town residents don't even know when their next-door neighbor or maybe a favorite store clerk passes away. We trade in the stores and still don't know one another's name.

Another thing I'd like to get away from are these smart-alecks and their loud jitneys whizzing by, trying to show off. And nothing is more pleasing to me than a sensible person who wears the proper clothing instead of running all over the streets nearly naked. There is some excuse for the noise the big trucks make.

Of course, the small towns have a few such as these, but they don't parade the town and anyway the constable of a small town would get after them. It doesn't seem as if there are any laws in these large cities, nor that they are enforced if they do exist.

I'd go to a small town any day if I had an offer of a steady job. I wouldn't have to make a fortune, just so I could do for myself. I'd be glad to leave all the uproar of a large city and the discontentment and go where the beautiful trees and all of nature have room to grow. Love would also grow in such places where contented people dwell.

Doctors' Strike

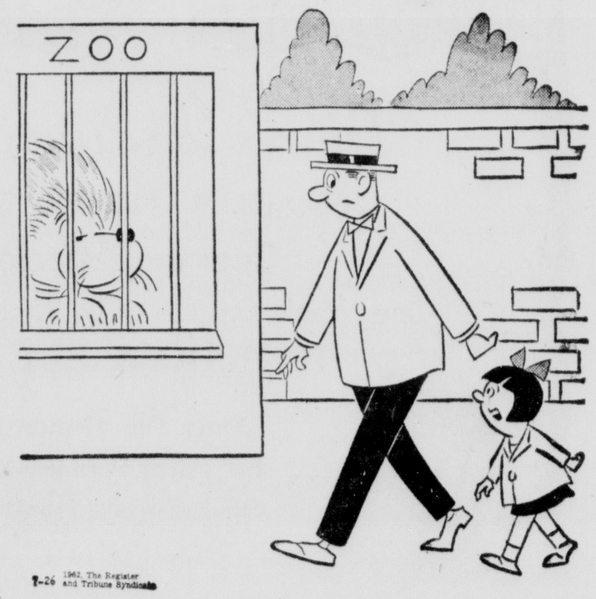

Lincoln, Neb.

The strike by Canada's medical profession makes one wonder just how much further away from the humanitarian instincts doctors will be able to place themselves. Most of us are painfully aware of the commercial aspects that have taken over today. It would be well for any doctor who considers himself among the dedicated to occasionally refresh himself on the time-honored words of his graduation oath.

". . . and abstain from whatever is deleterious and mischievous . . . With purity and with holiness I will pass my life and practice my art . . . Into whatever houses I enter, I will go into them for the benefit of the sick, and will abstain from every voluntary act of mischief and corruption . . . While I continue to keep this oath unviolated, may it be granted to me to enjoy life and the practice of the art, respected by all men, in all times, but should I trespass and violate this oath, may the reverse be my lot."

Over-40 Group's Sabin Oral Sunday Participation Urged

Persons aged 40 and over should make a special effort to participate in the second Sabin Oral Sunday, Dr. H. E. Wallace said Wednesday.

The Type III anti-polio dose will be given Sunday, the Lancaster County Medical Society's SOS committee chairman said.

Although "approximately 38% of our population is age 40 or over," Dr. Wallace observed, "only 45 to 48% of this age group participated in the first SOS clinics."

He noted that the medical society "is very pleased with the extent of participation by those under 40. We would like to stress, however, that the number of polio cases striking those in the 40 to 50 age group has been increasing slightly in the last few years."

Can Be Carriers

He explained that persons in the 40-50 age bracket "can still be 'carriers' of the polio virus and transmit the disease to others."

To combat the disease successfully, Dr. Wallace emphasized that "we need to eliminate the carrier stage as well as provide immunity."

When Lancaster Countians return to the 22 schools serving as SOS clinics for their second dose, they will see some familiar faces, according to Don Weller.

The Jaycee representative and SOS staffing chief said approximately 1,100 volunteer workers helped June 17. More than half of them have volunteered to help staff the clinics this coming Sunday.

These 1,100 workers have volunteered individually and through organizations such as the PTA, Junior League, Boy Scouts, Lil-Eliminators, Mrs. Jaycees, Lincoln ham operators, District III Nurses Association, Lancaster County Pharmaceutical Association, medical and dental auxiliaries, Jaycees and members of the medical society.

New groups providing volunteers are the PBX Operators of Lincoln, Knights of Columbus, Cosmopolitan Club, Executive Club, and Kiwanis, Lions, Optimist, Rotary and Sertoma Clubs.

Dr. Wallace said, "Even if an individual missed the first dose of the vaccine, he need not hesitate to take the Type III dose to be given on July 29 and the final dose on Sept. 23."

After that, he said, Type I can be taken the last week of August or any time after Oct. 20 ta a doctor s office.

Disorderly Charges Dismissed

Charges of frequenting a disorderly house against 5 defendants were dismissed for insufficient evidence Wednesday by Municipal Judge Richard Johnson following trial.

Defendants were Elbert Ellis, Rosie Ellis and Eldridge Key, all of 1205 No. 22nd; William Yarborough of 860 No. 23rd and Dorothy Johnson of 2233 T.

The defendants were arrested in an early morning police raid at 1680 So. 3rd June 17.

In sustaining a defense motion for dismissal, Judge Johnson noted the language of the charge was "frequenting a disorderly house."

"There's no evidence of frequenting," Judge Johnson said. "The stipulated evidence and other testimony is the defendants were there (1680 So. 3rd) only at the time of the police raid. There's no evidence of previous or frequent occasions."

Defense Attorney Leonard Dunker had pointed out to the court that the city might have filed "visiting a disorderly house" complaints against the defendants, but there's "no evidence of frequenting a disorderly house in this case."

Amendment Tried

City Prosecutor Fred Swihart attempted to amend the complaint to "visiting" after trial commenced, but was overruled by the court.

Noting he hadn't drawn the complaint, Swihart said he "was not prepared to show (the defendants were) frequenting."

Police raided the residence after an undercover police officer allegedly purchased alcoholic beverage on the premises.

In evidence stipulated from two earlier cases, the court found 1680 So. 3rd became a disorderly house when the act of unlawful sale of liquor occurred.

The city gave notice of intent to appeal from the court's ruling on the dismissed cases.

An identical charge against Mark Council of 1146 West P was dismissed before trial by the city.

House Passes Ag Money Bill

Washington (AP) — The House passed the $5,465,842,500 Agriculture Department money bill Wednesday after a brisk debate over whether the Kennedy or the Eisenhower administration did more congressional lobbying.

The appropriation was finally sent along to the Senate on a roll call vote of 345 to 41.

Just ahead of the vote on passage a party-line standing vote of 212 to 118 turned down an amendment by Rep. Robert Dole, F-Kan., aimed to remind the executive branch there is a law on lobbying.

It would have prohibited use of any of the money in the bill for salaries or other expenses of department officials and employes who seek to influence the course of legislation in violation of existing law.

Dole, and other Republicans who supported the amendment, claimed recent events made it necessary to remind the executive departments that there is a law against lobbying members of Congress.

Stegosaurus Dinosaur Will Be Built In Children's Zoo

Construction of a fountain shaped to represent a prehistoric stegosaurus dinosaur at the Children's Zoo is expected to begin this summer.

Announcement followed Lancaster County Judge Ralph Slocum's approval of the city's request to construct the $29,145 statue with trust funds left the city by the late Dr. Hudson J. Winnett.

In his will, Dr. Winnett, a former Lincoln mayor and physician, stipulated that income from his estate be spent on Lincoln City Parks for "fountains, tablets commemorating historic events, statuary and other permanent decorations."

The fountain, which will bear the inscription, "Given to the Children in Memory of Dr. H. J. Winnett," will be constructed of bronze and fiberglass.

The ribs of the animal will be formed by streams of water cascading into 3 pools below the fountain with the entire statue being surrounded by cedar trees.

The city was the primary beneficiary in the Winnett estate having $398,885 in trust at the present time.

Safflower Good Despite Weather

Sidney (AP)— Safflower was reported to have gone through this summer's unusual weather pattern with no difficulty, except in areas where hail destroyed all crops.

Ned Robinson, manager of the Sidney Mill, said the safflower acreage under contract looks good and apparently is receiving enough moisture to offset a weed problem prevalent in some areas.

LIFE BEGINS AT FORTY:

Good Personal Appearance Aids Recovery

By ROBERT PETERSON

I was in bed three days recently with some kind of a virus infection. My nose was stopped up, my eyes were watery, and my throat was sore. I felt so miserable that I didn't want to shave, comb my hair, or change my pajamas. I just wanted to stay in bed and be left alone.

At the end of the third day I looked in the mirror and was so shocked by what I saw that my spirits sagged to a standstill and I felt sicker than ever.

But then my wife intervened and insisted that I shave, comb my hair, and slip into a new pair of pepermint-striped pajamas. A few moments later I glanced in the mirror and was so pleased to find I was alive and human after all that I actually sensed a wave of recovery. By the next morning I felt completely recovered.

It was a good example to me of the therapy being used in many hospitals and homes for older people. In the past, little attention was given to a patient's appearance. He could lie there with his white night-shirt rumpled like a laundry bag and his hair a virtual sparrow's nest. Men went for days without shaving, and no one thought of bringing in a beautician to arrange milady's tresses.

Then nurses and physicians began discovering that patients have a higher motivation to get well and return to productive pursuits if they look well. Today, enlightened institutions for ailing elders provide patients with bed-clothes in cheerful pastel colors. They insist that men shave and comb their hair daily. And they arrange for women to get regular facials and hairdos.

Said one doctor, "Whenever a patient calls the nurse and says, 'please put my name on the list for a shampoo,' we know he's passed his low point and it won't be long until we have him back on his feet."

How we feel is not only influenced by how we look, but how others tell us we look. A few evenings after my recovery from the virus I went to a party feeling better than I'd felt in weeks, when in walked an old acquaintance — an authoress I hadn't seen in years.

She looked me over and jolted me to my fingertips by declaring, "You look terrible—haven't you been getting any sleep?" Then she proceeded to tell me that I was pale, had bags under my eyes, and had lost too much weight.

She didn't mean any harm. And I shouldn't have given it another thought. But I've got to admit the luster of the evening was dulled just a little by the realization that this candid female apparently didn't find me quite as robust, bright-eyed and well-preserved as I had found myself a few minutes earlier as I was adjusting my bow tie in the hall mirror.

After the stock market tribulations of the past few months, many investors are echoing the maxim that says, "A poor man and his dreams are better than a rich man and his nightmares."

If you would like a booklet, 'Basic Health Rules for Older People" write to this column c/o The Lincoln Star enclosing a stamped, self-addressed envelope and 10 cents to cover handling costs.

Rancher Black Is Dead At 83

Alliance (AP) — Funeral services will be held at Alliance Thursday at 2 p.m. for Ode E. Black, 83, prominent rancher in the Lakeside area. The services will be at St. Matthews Episcopal Church.

Mr. Black died of a heart attack while driving around his ranch Monday. When he didn't return for dinner, his son, Arnold, went up in his plane to locate his father's car.

Mr. Black was a director of the Guardian State Bank of Alliance.

Milford Principal To Join Faculty At Wesleyan Uni.

The principal of the Milford Public Schools, Bradley R. Lear will join the faculty of Nebraska Wesleyan University this fall as instructor of secondary education.

Lear will fill a vacancy created by the promotion of faculty personnel after the creation of the new division of student affairs, according to President Vance D. Rogers.

Lear, a native of Springview, graduated from Keya Paha County High School in 1949. He earned a bachelors degree from the University of Nebraska in 1953 in social studies, and a masters from the University in 1959 in school administration. He is presently working on a doctors degree at the University.

Lear also taught at Burke Public Schools, Burke, S.D. and served in Europe in the U.S. Army.

ANGEL

By Mel Casson

"You people have been lookin' at too much of that mushy stuff on TV!"

Autos Beware!

Williamsburg, Va. (UPI)—The city council agreed to an experiment which may lead to a permanent banning of the horseless carriage from streets once trod by George Washington, Thomas Jefferson and Patrick Henry.

Pakistan Woman Joins Faculty Of Garden Co. High

Oshkosh—The Garden County High School board of regents has unanimously agreed to appoint Mrs. Saeeda Hamid, a native of Pakistan, as homemaking instructor during the coming term.

Mrs. Hamid was born and raised in Lahore, Pakistan, attended Lahore College for Women two years, and received a diploma from Polytechnic London in England in 1957.

She has taught home economics in Pakistan and England and will receive her master's degree in home economics from Colorado State College in Greeley, Colo., at summer's end.

Her husband, an engineer, is with a consulting engineering firm in Greeley, Colo. They have two pre-school-age children.

De Gaulle's Plan For Independent 'A' Striking Force Becomes Law

Paris (UPI) — President Charles de Gaulle's plan for an independent nuclear striking force became law Wednesday when it passed the national assembly's third reading.

Premier Georges Pompidou Tuesday made the bill a confidence motion as he had the first two times.

But the opposition failed to muster the necessary 48 votes for a censure motion and the bill became law.

It calls for $40 million in credits for construction of a plant at Pierlatte, southern France, to produce enriched uranium for French atomic weapons.

Opposition to the bill came chiefly from Guy Mollet's Socialists. The Socialists, two splinter parties and a number of members of the Popular Republican Movement (MRP), argued that France's nuclear deterrent should be more fully integrated with the West. They said an independent striking force would be too costly.

De Gaulle repeatedly has stated he wants France's modern army to be equipped with nuclear weapons.

Under the French constitution there is no vote if the government makes a confidence motion on a bill—in fact staking its life on passage—and the opposition fails to get enough votes for a censure motion. The bill in question then automatically becomes law.

On July 16, at the first reading of the bill, the opposition put forward a censure motion. But it obtained only 206 votes, 35 short of the 241 absolute majority needed to tumble the government.

The Senate twice voted it down but Tuesday night the bill passed the assembly for the second time when the opposition again failed to muster enough votes for a censure motion.

Wednesday's final reading made it law.

Following the defeat of the first censure motion, only the Socialists remained adamantly against the bill. But there are only 43 Socialist deputies and the other parties refused to support them.

HEAD BOYS NATION

H. Pettus Randall, left, of Tuscaloosa, Ala., and Bernard W. Giesen II of Houston, Tex., join in mutual congratulations Wednesday. Randall has been elected president and Giesen vice president of the 17th annual American Legion Boys Nation.

EXCITING LIBEL TRIAL!

Don't miss "Reputation"—condensed from Louis Nizer's $5.95 best-selling book, *My Life in Court* in August Reader's Digest.

Syndicated personal newspaper columns are like cannon. They can, and have, destroyed a man's reputation with one shot—which is exactly what Westbrook Pegler tried to do to war correspondent Quentin Reynolds. Read the exciting account of the trial in the August issue of Reader's Digest—*now on sale.*

Lincolnite Suffers Broken Back In Superior Mishap

David Guthrie, 62, of 4117 Washington, suffered a broken back Wednesday when he fell from a ladder to the concrete floor at the telephone company in Superior.

Guthrie was first taken to a hospital in Superior and later moved to St. Elizabeth Hospital, where his condition is good.

Guthrie, an employe of the Lincoln Telephone and Telegraph Co., had climbed the ladder to reach behind some equipment. The ladder slipped from beneath him and he crashed to the floor.

One Burglary Is Success, Another Try Is Failure

Lincoln police reported a burglary, attempted burglary and illegal entry resulting in property damage Wednesday.

Olson Construction Co. told police that an unknown person or persons broke into the construction site of the Pound Junior High School at 45th and La Salle Tuesday night. Damage was estimated at $100.

An unknown person stole $5 in cigarettes and small change from Perry's Grocery and Dairy Store, 2100 Holdrege, and the Kingdom Hall Church, 2128 Holdrege, reported to police that someone attempted, but failed to gain entrance at a back door.

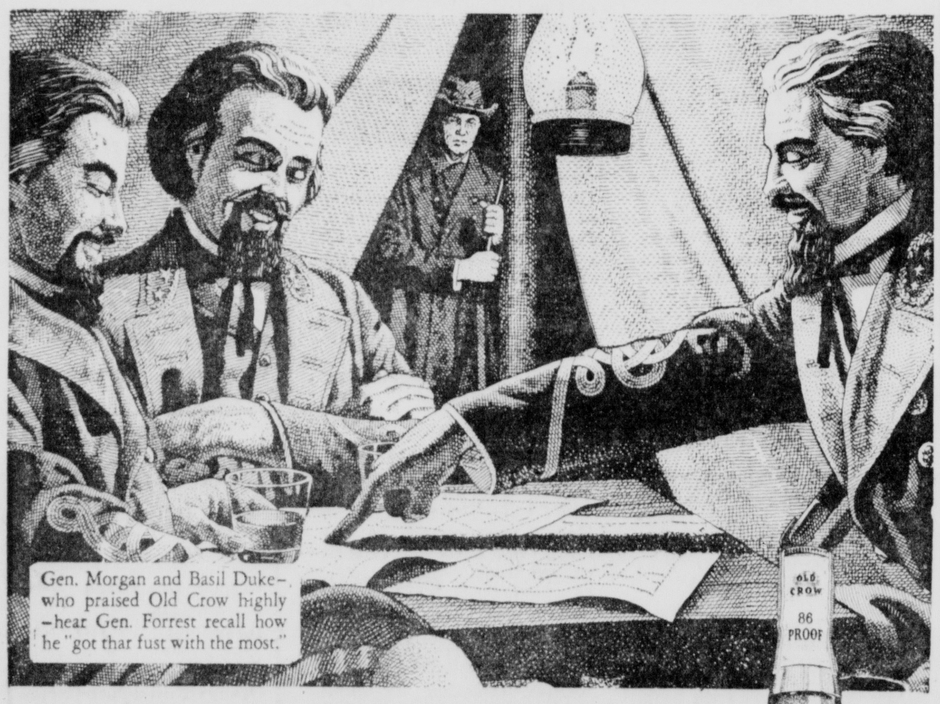

Business Stinks

Lorient, France (AP) — The citizens in this west coast French city are going around with their noses in the air. They have good reason. Angry fishermen protesting against what they say are abnormally low prices dumped the whole of their sardine catch in the streets.

TOTS' & GIRLS' SHOPS—THIRD

Blue Books buy anything money can buy . . . at Miller's

Nearly everybody at the American Embassy in Grosvenor Square is looking forward to being briefed against beautiful women spies.

The new course was announced by Deputy Secretary of Defense Roswell Gilpatric in Washington. And, as an accredited correspondent to the Department of Defense, I put in my bid for briefing.

"You're way down on the list," I was told. (I must admit I got this at a nearby pub.) "Everybody over at the place is wild to be briefed. We all rather imagine we will be tempted by the most desirable sirens — there's a chick in the USIS library who tempts me just to look at her.

"We are anxious to test our will power. I'll try to get a clearance for you from the Ambassador. But you'll probably have to queue up, old boy."

☆ ☆ ☆

I'll wait all right. For I certainly want to test my own defenses.

How will I react when a Mata Hari type sidles up after the belly dance and says: "What is that soupcon of sometheeng deeferent you put een your fried cheeken, M'sieu?"

Well, I won't tell her. What I do with fried chicken is positively sensational.

I have eaten chicken shashlik in Moscow. Believe me, the Russians would give a guided missile to get their mitts on my recipe.

☆ ☆ ☆

"Ees eet pair'aps tarragon?" says the vampire. She caresses my head with one hand. She tries to get at the foxy pocket with the other.

What do you do? I am as weak as the next man. (The next man is so weak he couldn't pick up the luncheon tab yesterday. I had to do it and have been worried about hernia ever since.)

What do you do?

In 50 seconds flat, the "What's My Line" panel could wrest out of me that I am a secret guitar player.

The British "I've Got A Secret" people would find me a soft target.

What chance have I got when a Paris belly dancer is giving me those goo-goo eyes?

☆ ☆ ☆

Against just such temptations, the Pentagon decided to hold a course on resistance.

The course will be given to military and civilian personnel who may be traveling in Iron Curtain countries. The military and the State Department have been embarrassed by a few of their people handing out little things in the name of love.

Love is a hard thing to put the knock on. But I imagine the course will show you that it is possible to kiss and still not tell.

☆ ☆ ☆

"Why should you get the course ahead of me?" I said indignantly. "What can you blab about?"

"We have a lot of information," he said. "Not that I could tell you. But things like the number of books drawn from the USIS library—where that beautiful doll works."

"Be mighty bad if she got that figure out of weak old me."

"She knows already."

"She doesn't know my telephone number," he said. "I'd give with that right away. Then who knows. I need that course bad. I'm childish about goodlooking mice and I need to be starched up."

☆ ☆ ☆

Anyway, I can tell you that we are all waiting. Ready, willing and able to take the course in resisting beautiful women spies. No matter how horribly tempting it may be.

"It's likely to be a long time before we get it," said the man from the Embassy. "Everybody in Washingotn will want it first. By the time they ship a temptress over here, we'll probably be able to resist with no trouble at all."

BLUE BOOKS BUY ANYTHING MONEY CAN BUY, AT MILLERS

Philippines Seen As Top Market For U.S. Wheat

The Philippines may become one of the major cash markets for U.S. wheat if the Filipinos can solve internal storage, transportation and milling and banking problems currently curtailing consumption of wheat products in that county, a Nebraska wheat industry leader said.

Richard Lewis of Arapahoe, chairman of the Nebraska Wheat Commission, made the observation after meeting with a Filipino wheat study group in Nebraska recently.

Lewis, who visited the Philippines early this year on a tour of the Far East, said a team of 3 Filipino wheat men is in the United States studying milling and baking methods.

Lewis quoted the team members as saying the potential for increased wheat use in the Philippines is great.

The Philippines bought some 8.9 million bushels of U.S. wheat during the past export year.

"And the important fact is that they are a cash market," said Lewis.

The visit of the Filipinos to America is co-sponsored by Great Plains Wheat, the Nebraska Wheat Commission and Western Wheat Associates. Team members include Arturo H. Maramba Jr., quality control analyst and researcher for Liberty Flour Mills; Protacio C. Amores, sales and promotion director of General Milling Corp. for wheat flour, and Mauricio C. Palao, director of sales promotion and public relations with local bakeries for Republic Flour Mills.

Hail Cancels Summer Crops Day

The annual summer crops and irrigation field day which had been scheduled to be held at the North Platte experiment station Aug. 17 has been cancelled.

Supt. James C. Adams said the event was called off because of recent wind, hail and rains.

Another field day probably will be held later in the fall with emphasis on sorghum crops, he said.

Bank Loaned Record $64 Million

Omaha (UPI)—The Omaha Bank for Cooperatives loaned a record $64 million to 345 farmer cooperatives in Iowa, Nebraska, South Dakota and Wyoming during the fiscal year ending June 30, according to President John E. Eidam.

Eidam said the record volume of loans resulted in a net gain in the bank's operations of $667,000.

After federal taxes, a dividend on stock, and additions to surplus, $360,000 was distributed to the co-operatives as a patronage fund.

Eidam said the farmer cooperatives in the 4-state area were well on their way toward the goal of complete ownership of the Omaha bank.

24 Oil Wells Planned In Central Nebraska

North Platte (AP) — D. G. Hamilton, Wichita, Kan., oil promoter, has filed notices of intent to drill 24 oil wells in a 6-county area of central Nebraska.

Hamilton still has 15 other area well drilling sites on file with the Nebraska Oil and Gas Conservation Commission. The new wells are planned in Lincoln, Logan, Custer, Keith, McPherson and Arthur counties.

State's Assessed Value Up $89 Million

The State Board of Equalization Wednesday set the state's 1962 total assessed value at $3,367,219,071, an increase of more than $89 million over last year and equal to a 2.4% rise in assessed value of all tangible property.

The increase is greater than early estimates, and carries hope that the state levy may not have to be increased this year, in spite of the .17 of a mill jump in the special levy for state parks which went into effect this year.

A major factor yet to be considered, however, is the estimated revenue the state will obtain from its cash receipts which go into the general fund.

Cash Receipts

Cash receipts come from such sources as intangible taxes (which are up again this year), fees from various licenses and services, and special excise taxes on such items as beer, liquor, cigarettes, bingo, grain and insurance.

The board set the total after it voted to raise Hayes County's rural land valuations 15% over the figure submitted earlier on its tax abstract.

The grand total actual value of all tangible property in the state as reported on the tax abstracts of the 93 counties is $9,353,999,650. The assessed value (35% of actual value) of this property is $3,273,899,886.

To this latter figure is added the assessed value of all franchises, $4,094,595; the assessed value of all railroads operating in the state, $89,091,670, and the assessed value of Pullman Company, $132,920, to get the grand total assessed value.

No. Loup Plan Cleared

Gov. Frank Morrison was notified late Wednesday that the Department of Interior has cleared the North Loup Reclamation project for feasibility and has so advised the House and Senate Interior Committees.

The project would irrigate some 52,000 acres of land south of Ord in Valley, Greeley, Howard and Merrick counties.

The governor said he had asked the Department of Interior to take speedy action on the project so that hearings for its authorization—the next step—could be held yet this session of Congress.

"The project had been tied up by the Bureau of the Budget and we got it out of there last week. I am most pleased with the Department in cooperating with us," Morrison said.

The project proposes a 108,000 acre foot reservoir on the Calamus River near Burwell, and a 22,400 acre foot reservoir on David Creek near Coatsfield.

The Calamus Dam would be used principally to store water for irrigation use. The David Creek impoundment would be used principally for regulating water releases.

Bridge Monies Sought

Governor Morrison said Wednesday the state is forwarding a request to President Kennedy for $300,000 to help repair bridge damage in 6 counties which occurred as a result of recent heavy rains.

He made the statement while commenting on criticism by Rep. David Martin (R-Neb) that the governor has been "dilly-dallying around" and has not acted promptly in getting emergency federal assistance for flood-hit Nebraska counties.

The counties in which the bridge damage occurred were Rock, Brown, Keya Paha, Cedar and Dixon.

Morrison said he is much too busy to take time for an exchange of criticism with other politicians.

Morrison said both the counties and the Nebraska National Guard "have operated at full throttle" in the program to obtain federal relief for the stricken areas.

In each case, as soon as the required information was obtained from the counties, it was forwarded immediately to Washington, he said.

The National Guard was designated as the state agency to coordinate dealings between the counties and the federal government.

Morrison said Martin had never communicated to him any ideas on what might be done to help the people affected by the floods. He suggested the congressman could do much more good for the state "if he will concentrate on legislation in Washington to help the implementation of the Mid-State Project." He said the project lies primarily in Martin's district.

The governor said he has written to the Secretary of the Interior requesting him to send letters to the chairmen of the House and Senate Interior Committees assuring them that if the Mid-State Project is authorized and built it will be implemented during a 50-year payback period, instead of 100 years.

There is every indication, Morrison said, that if the secretary will give this assurance, this would satisfy the committees and pave the way for acceptance of the plan by the Congress.

Morrell Selected

Arthur — Noble Morrell was named president of the newly-organized Arthur Chamber of Commerce. Other officers include Ray Kramer, vice president, and Robert Crouse, secretary - treasurer. Arthur has a population of 176.

St. Elizabeth Advisory Board Formed

By ROGER WAIT
Star Staff Writer

A national trend among hospitals operated by Roman Catholic religious orders has come to Lincoln.

For the first time since it was founded in 1889, St. Elizabeth Hospital will have an advisory board made up entirely of laymen.

The board held its founders' meeting Wednesday under the acting chairmanship of Kenneth G .Witt.

It activated a by-laws committee to establish its pattern of future operation and set noon Sept. 19 for its first formal meeting to elect officers.

Don Duncan, assistant administrator of St. Elizabeth, said the charter board members have tentively scheduled a familiarization tour of the hospital for 3:30 p.m. Tuesday.

'Advise And Assist'

The St. Elizabeth Advisory Board's function, Duncan said, will be to "advise and assist us in being as effective in our work in the community as possible."

He confirmed that the board will study whether St. Elizabeth should join the proposed Lincoln Hospital Council.

In addition to Witt, initial board members include C. Wheaton Battey, William O. Dobler, Lawrence Enersen, Bennett S. Martin, Dr. Charles S. Miller, Edward M. O'Shea, District Judge Elmer Scheele, Joseph Silverman, Willard E. Townsend, John C. Whitten and Arthur J. Weaver.

Duncan said George Holmes is an honorary member because of his longtime financial advice to the Poor Sisters of St. Francis Seraph, the order which owns and operates the hospital.

In the talking stage for 2 years, the advisory board will be important to the hospital, Duncan said, because St. Elizabeth "will lean very heavily on their advice."

The board will not have final executive authority, however; that will rest with the hospital administrator, presently Mother M. Asella. In a letter to board members, she wrote:

"Our city has, and continues to undergo, considerable growth. Increased population always presents new health problems and it therefore seems logical to us that every effort should be made to study and correlate Lincoln's existing hospital facilities."

Since World War II, the hospital has carried out a $2 million program of capital improvements. More are planned.

The hospital receives no money directly from the Roman Catholic Church, and it is not under direct control of the bishop of Lincoln. It does, however, operate under standards expected of all Sister-run hospitals.

One of Lincoln's 3 accredited general hospitals, St. Elizabeth has 265 beds and 43 bassinets. Because of sisters' services, the administrator said, in recent years "free care costing $153,700 was furnished the Lincoln community."

The interdenominational board (only 5 charter members are Catholic) "will enable use to provide these (hospital) services, with dispatch, in a prudent and efficient manner and in the best interests of the people of this community individually and collectively," she added.

Duncan explained: "We want more people to know us and to understand us."

Lincoln General Board Endorses Council Plan

The proposed Lincoln Hospital Council received its first endorsement — in principle— from Lincoln General Hospital's board at its regular meeting Wednesday.

It thus became the first of Lincoln's 3 accredited hospitals to pledge support to the 15-man body which is supposed to represent the public, physicians and hospitals.

LGH Administrator Herbert Anderson said the hospital's chief of medical staff, liaison committee head and vice chief of staff attended the board meeting and indicated they approved the council idea.

A hospital council has been under discussion locally for a year; getting the idea off the ground has been largely due to efforts of the Chamber of Commerce's health facilities committee, Anderson said.

Would Study

The council would:

—Study and evaluate services provided by local hospitals and medical facilities, including their administrative, economic and operational problems. Recommendations would then be made to the public.

—Improve cooperation and understanding between hospitals, physicians and other groups.

—Coordinate inter-hospital efforts to meet community needs.

—Examine Lincoln's present and future requirements for hospital and medical facilities' services.

The proposed council would have 9 members representing the public, and 6 the hospitals. One of the 9, however, Anderson said, would be the president of the Lancaster County Medical Society. How the other 8 laymen would be appointed has not been spelled out.

Each hospital would have its medical staff head and governing board member on the council. Administrators would serve merely as "resource" people.

Attending his first board meeting was Robert A. Dobson, appointed recently by the City Council to replace Mrs. James H. Ellis who resigned.

3 NU Faculty Members Attend Moscow Meeting

Three members of University of Nebrska faculty are attending the 8th International Cancer Congress this week in Moscow.

They are: Dr. Norman H. Cromwell, Regents professor of chemistry; Dr. Donald M. Pace, chairman of the department of physiology and director of the Institute for Cellular Research; and Dr. Donald T. Waggener, chairman of the department of oral pathology and coordinator of cancer instruction, College of Dentistry.

Dr. Waggener will present a paper at the Congress.

After the international meeting which will be attended by cancer researchers from over the world, Dr. Pace plans to visit cancer study centers in Munich and Paris.

Dr. Cromwell will tour medical research institutes in Leningrad and Kiev. He has also been invited by the Secretary-General of the Hungarian Chemical Society to lecture in Budapest and Debrecen on the activities of cancer institutes in the United States.

Nebraska Alumnus Cited For Coverage

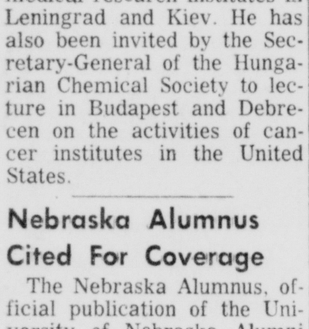

The Nebraska Alumnus, official publication of the University of Nebraska Alumni Association, was one of 7 university publications cited for faculty coverage by the American Alumni Council.

Editor of the Nebraska Alumnus is Mrs. Harriet Coble.

The award was announced at the AAC's national meeting in Banff, B.C. The competition was open to 602 colleges and universities who are members of the AAC publications section.

Also among the 7 universities receiving awards for faculty coverage were two other Big 8 schools — the University of Missouri and the University of Oklahoma.

Two Men Added To Lincoln Police Force; One Quits

Lincoln Police reported the hiring of two new men and the resignation of a 3rd.

Richard Cornwell, 22, of 930 So. 16th has been employed as a policeman, and LaVern Goeglein, 18, of 6821 Kearney, as a cadet, according to Lt. Dale Adams.

Cornwell is married and has no former police experience. Goeglein will replace William Tebo who resigned.

Officer Albert Benson has resigned effective Aug. 15, Adams said. Benson has been on the force about 5½ years. The department is now 3 men below authorized strength, according to officials.

Miller Says Modifications Apparent In Training Act

Objections registered by Nebraska and a group of other states to certain provisions of the Federal Manpower Development and Training Act apparently have resulted in some modifications, State Education Commissioner Floyd Miller said Wednesday.

Dr. Miller made the comment upon his return from Washington where he and education commissioners from New Hampshire, Oregon, Missouri, Ohio and Pennsylvania and vocational education directors from a half dozen states conferred on the program this week.

The change in Washington planning, Miller said, may be "more of attitude and function than of structure," but he reported that the objectionable feature of "prior approval" has been modified to "simultaneous approval."

Voted In June

The State Board of Education voted in June to approve Nebraska Department of Education participation in the program only if the federal government removed the provision requiring prior federal approval for each project undertaken.

Under the new "simultaneous approval" program, U.S. Department of Health, Education and Welfare regional consultants will assist in the development of projects and give a "prior type" examination rather than "post type" as generally done under existing programs.

"The prior type examination will take place at local or state levels and will be carried out cooperatively with state agency officials," he said.

Act Differs

The Manpower Act differs from other cooperative state-federal educational programs, Dr. Miller said, in that it involves a nationalization of manpower in peacetime and is basically a Department of Labor project.

State educational agencies are to be involved on a contractual basis for services, with the U.S. Office of Education acting as a partner of the Department of Labor and as liaison with state departments.

"The sharing of project approval is a protection to state educational agencies. This is important because labor officials select and place trainees. If trainees cannot produce, the responsibility of labor officials cannot be shifted since they had a part in the approval of the training program."

No Scapegoats

This forestalls state education departments from becoming scapegoats for programs which might have had little chance for success because of ineffective selection and placement, Dr. Miller said.

The commissioner said he "cannot speak for the board nor predict its reactions to the observations I bring back from Washington, nor to the agreement when it is finally completed and presented to the board."

He noted, however, that board members are "fair minded, sincere individuals who will give serious consideration to any developments which have taken place" since their last meeting.

Ability Of States

Speaking for himself, Miller said, "I still believe in the ability of the states to do an educational job without objectionable federal control."

Dr. Miller concluded by saying that the more he learns about the Manpower Act, the "more difficult it is to see our relationship to it as either black or white. But I am convinced as I indicated at the July meeting, that it will be better for both Nebraska and the nation if we participate than if we do not."

Loser Of Gun Battle Still Fair

A 45-year-old ex-convict who fought a losing gun battle with a State Safety Patrolman Tuesday remained in fair condition Wednesday, a spokesman at St. Elizabeth Hospital said.

Rhoades was shot between the eyes in a gunfight with Patrol Lt. J. E. Kruger. The ex-convict had suddenly pulled a gun while being questioned by the trooper on a county road south of Waverly. After an exchange of gunfire, Rhoades gave up when shot in the face.

The bullet entered the bridge of the nose and coursed downward toward the throat. As of Wednesday evening, the bullet had not been removed.

Will Be Moved

Hospital authorities said Rhoades would probably be moved to quarters at the State Penitentiary Thursday or Friday.

Lancaster County Attorney Paul Douglas has filed a charge of assault with intent to kill, wound, or maim against Rhoades.

In his hospital room Wednesday afternoon, Rhoades, groggy from medication, looked up when a nurse entered the guarded room.

"What seems to be your biggest problem?" the nurse asked pleasantly.

Head Hurts

"My head hurts," the patient-prisoner said.

"Course, that's natural, I guess," he added in afterthought.

Rhoades was visited Wednesday morning by his mother and step-father from Hot Springs, S. D. He spent the rest of the day sleeping and chatting with the patrolman on guard duty.

'Road Ranches' Are Planned To Lure Tourists

Ogallala (AP)—Eight major "road ranches" will help serve as "show windows" to lure tourists into stopping in Nebraska along Interstate 80, according to Nebraska Game Commission Director M. O. Steen.

Steen addressed a meeting of city, county, chamber of commerce and historical society officials here.

He said the wayside parks or "road ranches" will contain a minimum of 200 acres. They would include lakes of 20 to 45 acres, swimming facilities, beaches, landscaping, overnight camping areas, change houses, laundry facilities, rest rooms, shower houses, parking areas and playgrounds.

"We hope private industries will develop service stations, motels and restaurants," he said.

He envisioned 8 stops stretching from Omaha west, including one in this vicinity.

He said, "My thinking is that it should be at the lake where not 35 but 35,000 acres of water are available."

Although Lake McConaughy is about 7 miles from Ogallala Steen said he believed it would be close enough to the Interstate to attract travelers.

In between the road ranches would be the "chain of lakes" with smaller roadside attractions.

Steen said Ogallala would become a vital cog in the state tourism program because of its location just east of the Interstate 80 junction, one route going south to Colorado and the other west.

No One Hurt As 28 Cars Derailed

Seneca (AP) — Twenty-eight cars of Burlington freight train No. 78 were derailed early Wednesday at Norway about 7 miles east of Seneca.

There were no injuries but tracks on the main line to Alliance were blocked by the wreckage.

Cause of the derailment has not been determined.

Crews were sent from Alliance and Lincoln to clear the tracks. It was not known when traffic would be resumed. Other trains scheduled over the line were rerouted.

The derailed cars included some empties and others containing oil, asphalt, sugar and meat.

The engineer on the train was Earl Annable of Alliance and the conductor was L. E. Melton of Ravenna.

World War II Unit Plans 2-Day Reunion

Falls City (UPI) — The second annual reunion of Company B, 134th Infantry, 35th Division, a World War II unit, will be held here Saturday and Sunday.

Falls City's National Guard Company served as the nucleus for the unit. Orval Von Seggern of Falls City is president of the Company B Association.

Boy Plays Ball While Doctors Plan The Fate Of His Arm

Boston (AP) — Young Everett Knowles Jr., was out playing ball Wednesday while doctors got set for a crucial series of operations on which the boy's right arm — and medical history — hinges.

At stake is the arm of the freckled-faced, 12-year-old youngster, who lost it in a clean cut by the wheel of a freight train near his suburban Somerville home last May 23.

Dr. Ronald A. Malt, resident surgeon at Massachusetts General Hospital, said Wednesday young Knowles will be re-admitted in a week or 10 days for the final and most important phase of the precedent-setting surgery.

Doctors will attempt to reconnect the numerous nerve fibers, which were severed — along with the bone, flesh, veins and arteries — about three inches below the shoulder joint.

If successful, Malt said, the youngster will have the use of his arm.

Failure, he added quietly, means the boy will have a dead arm — a useless adornment.

In that case, Malt said, amputation would seem advisable.

The boy's arm was reimplanted to his body the same day he was wheeled into the Massachusetts General operating room, his arm following in a bucket of ice where doctors had placed it to keep it from deteriorating.

Within an hour of the accident, doctors had begun connecting the severed ends of the veins and arteries and had restored life-giving blood down to the fingertips.

All previous operations are deemed successful, Malt said Wednesday.

At the time, doctors decided it would be advisable to hold off the crucial nerve-connecting operations until a later date.

Now, Malt said, they will be performed next Wednesday or Sunday.

He added that the outcome of that surgery will not be known for at least a year.

A reporter sought to contact young Knowles at his home after Malt announced the new operations.

"Oh," said his 16-year-old sister, Judy, "he's out playing ball."

Next to prescriptions, cigarettes and cigars are the drugstore's best selling items, with over $604 million worth having been sold through these outlets in 1960. Cigarette and cigar manufacturers helped all retailers selling their brands with a $34½ million newspape advertising expenditure last year.

Medical Figures Requested Again

Governor Frank Morrison said Wednesday he is sending another letter to Dr. O. A. Kostal of Hastings requesting the Nebraska Medical Association to furnish figures on the number of Nebraskans who need medical assistance and are not receiving it.

Dr. Kostal, president of the association, said Tuesday that candidates for governor should take "a forthright stand on the issue of medical care and should state clearly thejr stand on such issues as the Kerr-Mills Act."

Asked to comment on this, Morrison said the Legislature and the governor should be furnished with the "most accurate figures possible" before arriving at a decision.

Socialized Medicine

He added there is "no question" that the Kerr-Mills approach to medical care for the aged is a form of socialized medicine because it is financed through a cooperative agreement between the state and federal governments.

Kerr-Mills proponents argue this is preferable to others because it leaves some measure of control in the hands of the states.

The medical association favors the Kerr-Mills program which was turned down by a 23-20 vote in the 1961 Legislature.

17,000 Eligible

Testimony on the bill, LB642, indicated there were about 160,000 Nebraskans in the 65 and over age bracket, and that approximately 17,000 of these persons would be eligible for the assistance envisioned under the bill.

Cost to the state would have been $1.9 million for two years.

"We need to have figures with reference to the need, before the Legislature can adopt the plan suggested by the medical association," Morrison said.

"I don't think any responsible Legislature or governor would add several million dollars to taxes without knowing exactly what our need is."

Morrison said again that plenty of time remains for a study of the needs, and noted that nothing can be done before the Legislature convenes in January.

The governor said he was "very concerned" because the facilities at the State Orthopedic Hospital, the University of Nebraska Hospital, and the Tuberculosis Hospital at Kearney are not being fully utilized.

Vital Part

"A full utilization of these facilities can and must be an important and vital part of any well-planned, comprehensive approach to our health needs," he said.

As governor, Morrison said he is vested with the legal responsibility of making complete use of these facilities to meet the needs of the people and feels that the medical association must cooperate in this matter.

Alma Will Be First

Knitten Enters Guilty Plea To Rape, Robbery

Max Kniffen pleaded guilty in Lancaster District Court Wednesday to rape and robbery charges in connection with a June 15 incident involving a 17-year-old Lincoln girl.

Kniffen

The 29-year-old Omahan, who was sentenced Monday in Fremont to concurrent life sentences on two kidnapping charges faces a maximum combined penalty of 70 years on the two charges in Lancaster County.

Kniffen waived preliminary hearing in open court, and Lancaster District Judge Elmer Scheele deferred sentencing pending an investigation by the adult probation officer.

According to police, the Lincoln incident involved Kniffen's forcing at gunpoint the girl and her male companion to drive from 48th and Greenwood where they were parked to a spot near Arrow Airport.

Kniffen then took each of their wallets, locked the girl's companion in the trunk of the car, and raped her, police said.

The Fremont convictions were based on similar incidents, the most recent of which involved the rape of a 27-year-old Fremont woman July 16.

He was apprehended in Valley after the rape and subsequently charged with both Fremont and Lincoln incidents after questioning.

Dispensary Construction Date Not Set

Construction of the $750,000 Lincoln Air Force Base dispensary probably will not start until early October, a U.S. Air Force engineer in Omaha said, and "that's not firm."

The autumn starting time is tentative, he added, because "there's beena slight delay" in the required review of final plans for the dispensary by various Washington, D.C., agencies.

Lt. Col. Robert C. Stephany, deputy Air Force regional civil engineer, told The Star Wednesday that all USAF medical facility plans have to be reviewed by the Defense Dept. and Budget Bureau.

Contracts for building the one-story LAFB dispensary probably will not be awarded until late September or early October, Stephany observed. And, he emphasized, the date for inviting bids is still undecided.

The engineer said his office received new charts on various construction projects Wednesday morning. He said more definite information on the dispensary building schedule would be available late in August.

Firemen Ride

Chincoteague, Va. (UPI)—Volunteer firemen turned cowboys to round up 197 of the famed wild ponies on nearby Assateague Island for an auction here.

Restoring Civil Rights

Caracas, Venezuela (AP)—The government says constitutional guarantees will be restored shortly. President Romulo Betancourt suspended civil rights following the first of two Marines revolts.

Sen. Kefauver Rejects Bethlehem Steel's Plea To Withhold Figures

Washington (UPI) — Sen. Estes Kefauver Wednesday rejected a plea by Bethlehem Steel Corp. that it be permitted to withhold its production cost figures from his Senate of steel industry prices.

The corporation had told Kefauver in a letter that it would not be in the public interest to reveal the data because such secrecy is vital to the competitive position of the American steel industry.

The antitrust subcommittee's investigation, aimed at finding out how much it costs to produce a ton of steel and other products, was launched immediately after last April's abortive steel price increase.

Investigators already are working, and hearings are to get under way this fall.

Bethlehem asked that Kefauver call a special meeting of the subcommittee to consider whether the public interest would be served by requiring the company to furnish the information.

The subcommittee met Wednesday and a majority voted to support Kefauver's position.

The Senator said that U.S. Steel Corp., the biggest producer, had raised no objection to the subpoenas calling for production costs figures.

He also wrote A. B. Homer, Bethlehem chairman, saying the corporation's letter was based on "misapprehensions," and adding: "I trust that you will promptly reconsider and join with other steel companies in submitting the simplified schedules by Aug. 14, 1962."

The Comptroller General's office is to handle the figures. Individual costs as related to specific companies will not be disclosed to the public during the hearings.

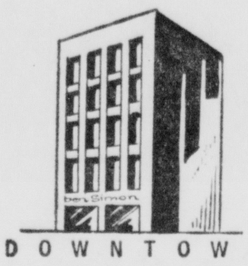

The Corporation's office here released the text of a letter to Kefauver which said among other things that "secrecy as to costs is vital to protection of the competitive position of the American steel industry against foreign producers."

The letter said: "The subpoena was issued immediately after our April 11, 1962, announcement of price increases. Your press release of April 16 stated that the subpoenaed cost data were 'essential to an intelligent evaluation of the need' for those price increases. It is not apparent to us that consideration of the necessity for an increase in the prices of steel products is properly within the province of your subcommittee."

The bidding:

South	West	North	East
1 ♠	Pass	2 NT	Pass
3 ♠	Pass	4 ♠	

Opening lead — king of hearts.

Card reading — the ability to deduce what cards the opponents have left, based on the bids and plays they have already made — is an important factor in the play of many hands.

Sometimes the declarer learns early in the play all he needs to know about the composition of the adverse hands. One simple clue may turn out to be the key to the entire hand. But you have to be alert to take advantage of the clue if you want to get the best possible result.

For example, take this deal. West leads the king of hearts on which East signals with the seven. West continues with the ace and another heart, East covering the nine with the ten.

South ruffs, of course, but at the same time makes a mental note that East has the queen of hearts. Declarer doesn't actually see the queen, but he knows East has it. East's play of the 7-6-10 in that order would not make sense otherwise.

South also notes that the contract is in some danger. He has two diamond losers to take care of.

It may occur to him, after drawing three rounds of trumps, to lead the ace and another club and finesse the jack, hoping the finesse will win, in which case he would be home. And he may plan, at the same time, to fall back on a diamond finesse if the club jack loses to the queen.

However, despite the three-to-one probability that one finesse or the other will succeed, this would be the wrong line of play. The better method is to lead three rounds of trumps, ending in dummy, and then play the jack of hearts.

When East follows with the queen, South simply discards a diamond. This forces East to return either a diamond into the A-Q, or a club into the K-J.

This favorable position comes about because declarer locates the queen of hearts early in the play and applies that knowledge to construct a situation from which East cannot escape.

Engagement Announced

Mr. and Mrs. Albert C. Lederer announce the engagement and approaching marriage of their daughter, Lynda Mae Higgins, to Jimmy L. Morgan, son of Mr. and Mrs. Ira D. Morgan.

The wedding will take place on Saturday evening, Aug. 11, and the 7:30 o'clock ceremony will be solemnized at the Warren Methodist Church.

Citizenship Conference

Delegates from Nebraska county home extension councils will meet in Lincoln on Thursday and Friday for a citizenship conference, to be held at the Nebraska Center.

Mrs. Louis Fear, president of the state Council of Home Extension Clubs, will preside at the conference which will include workshop discussions and talks by Mrs. Louise Bushnell, New York, National Association of Manufacturers; Dr. David Mickey, professor of history at Nebraska Wesleyan University; and Dr. Raphael Zariski, professor of political science at the University of Nebraska.

Other speakers will include Mrs. Frank Morrison; E. W. Janike, University of Nebraska director of agricultural extension; and Dr. Carl Davidson, minister of the First Methodist Church.

Guests, Travelers In Suburban News

EASTRIDGE

From first to last, this has been a summer full of music for Douglas Beezley, the son of Mr. and Mrs. Nathaniel W. Beezley.

First of all, Douglas was one of the members of the Lincoln Boy's Choir which traveled to Seattle to appear in concert at the World's Fair in June.

Then, during the 4th and 5th of August, Douglas will attend the Midwest Accordion Festival at Kansas City, Mo. Mr. and Mrs. Beezley will accompany their son to Kansas City, and after the meeting the family will spend some time vacationing in the Ozarks.

Will-o-Wood Resort on Rush Lake, near Ottertail, Minn., was the site chosen by Mr. and Mrs. Joseph Gatto and their nine year old son, Joe, for their summer holiday.

The Gattos report that the fishing at Rush Lake was excellent this season, and that everybody, including Joe, got their full quota.

The Minnesota lakes — and their resorts — seem to be very popular with Lincoln's suburbanites this summer. Dr. and Mrs. Joseph Weiler returned July 21, from a week at Maple Lake Resort on East Battle Lake. Also along to enjoy the swimming, boating and fishing were Dr. and Mrs. Weiler's sons, Tom and Bill.

On July 20, Lt. Henry S. Heffley, son of Mr. and Mrs. Heffley of Eastridge, sailed for a seven months cruise on the U.S.S. Pocono.

Lt. Heffley, who is a member of the U.S. Marine Corps, is in command of a Marine Detachment which has joined the cruise; and we understand that most of the time will be spent in the Atlantic, and that several European ports will be visited.

Mr. and Mrs. Max Walker have as their guests, this week, their son-in-law and daughter, Mr. and Mrs. F. O. Wanek and Jeff, of St. Louis, Mo.

Mr. and Mrs. Wanek and Jeff, who arrived on July 21, also are visiting Mr. Wanek's parents, Mr. and Mrs. Otto Wanek.

NORTHEAST HEIGHTS

Arlington, Tex., will be the new home of Mrs. James Wadlow and Jeanette, who left on July 20 to join Mr. Wadlow in Arlington.

Mr. Wadlow, who has been in Texas since March, is associated with the Arlington Daily News Texan, in that city.

Before Mrs. Wadlow left several courtesies were extended to her by her neighbors, relatives and business associates.

SOUTH HILLS

South Hills is doing its share in keeping suburbia active and interesting these summer days. There are guests to welcome—trips to take—and parties to plan.

Guests at the home of Mr. and Mrs. Herman Amend this past week have been Mrs. Amend's brother-in-law and sister, Mr. and Mrs. J. B. Foley of Huntington Park, Calif.

After several days in Lincoln the Californians proceeded to Quincy, Ill., for a few days, and on their return to Lincoln will be houseguests of Mrs. Foley's brother-in-law and sister, Mr. and Mrs. Guy Call for a day . . . and also will spend another day with Mr. and Mrs. Amend before returning to their home in Huntington Park.

And on July 21 Mr. and Mrs. George E. Mehser welcomed as their houseguests, Mrs. Mehser's parents, Mr. and Mrs. L. L. Kehr of Udall, Kan.; and her grandparents, Mr. and Mrs. F. F. Kehr, of Vienna, Mo.

We suspect that eight month old Rae Ann Mehser was the center of her grandparents attention during their weekend visit in Lincoln. After all this was only their second look at Rae Ann.

This week, Jan Church, 10 year-old daughter of Mr. and Mrs. Keith Church is being entertained by her grandparents, Mr. and Mrs. Bert Holcombe in Fairbury.

Jan, who went to Fairbury on Monday, will be joined by her parents on Sunday and return to Lincoln with them.

From July 16th until the 19th, Mr. and Mrs. Peter M. Rogacki were host and hostess to Mr. Rogacki's brother-in-law and sister, Mr. and Mrs. Americo Argenta and their sons, of Vincennes, Ind.

Also arriving at the Rogacki home on the 16th were Mrs. Rogacki's brother and sister-in-law, Mr. and Mrs. Harold Holt who remained in Lincoln until July 25.

During their visit the Rogackis and their guests spent a day or so at the Rogacki cabin at Fremont — and some of the time was devoted to visiting the various points of interest in Lincoln.

Departing Saturday for a trip to the west, will be Mr. and Mrs. Emory E. Coonrod and their children Kathleen, Kim and Jane Anne. After a brief stop in Chadron to visit relatives, the travelers will go on to Wyoming. The return trip will be made through Colorado where the Coonrod family will be the guests of Mr. and Mrs. Jerome Brim for a short time.

Guest From Abroad

A friendship of long-standing was renewed last week when Miss Sidonia Lutz (at left) arrived in Lincoln from her home in Winterthur, Switzerland, to visit Miss Pat Klemme (right) and Pat's parents, Dr. and Mrs. Carl J. Klemme.

The daughter of Dr. and Mrs. Otto Lutz of Winterthur, Sidonia and Pat became friends last summer during the Klemme family's visit in Switzerland.

Although at the moment, the household's plans consist of showing Sidonia as much as possible of the American midwest, including Minnesota, western Nebraska, Colorado and New Mexico, the next few weeks will be busy ones for Pat as she will be packing to accompany Sidonia home to Switzerland where she will spend a year as the guest of Dr. and Mrs. Lutz and their daughter.

Pat, who is a junior at Southeast High School, and her guest will leave for Europe late in August.

Talk Of The Town

At this stage of the game we suspect that young Miss Jean Ellen Mattoon believes that life consists mainly of packing and unpacking. Last Friday the four months-old Jean Ellen arrived at the home of her new parents, Dr. and Mrs. James Mattoon who greeted their daughter's arrival with an open house on Friday evening. Thirty-nine guests were on hand for the welcome.

Jean Ellen is to be baptized at the regular morning service at the First Presbyterian Church on Sunday. The young lady will be wearing a frock, handmade and hemstitched by her great-grandmother, and worn by her mother when she was baptized.

Actually the baptism is but one of many events to be faced by the newest resident in the Mattoon household. Early in August she, her parents, and her brother, Thomas Edward, (21-months old) will be leaving for a visit with her grandparents, Mr. and Mrs. Maxwell Mattoon in Loveland, Colo. Then comes the long trip back to Baltimore, Md., where Dr. Mattoon, on leave of absence from the department of chemistry at the University of Nebraska, will spend a year in research at Johns Hopkins. The Baltimore address for Dr. and Mrs. Mattoon and their family will be 1334 Kitmore Rd.

Incidentally — Miss Ellen Jean's maternal grandparents are Mr. and Mrs. R. J. McKissick of Kirkwood, Ill.

* * *

We have a guest to mention this morning — David Rhodes of Lawrence, Kan., who arrived on Tuesday evening to spend several weeks with his parents, Mr. and Mrs. H. F. Rhodes.

Mr. Rhoades, a graduate of the University of Nebraska where he is a member of Beta Theta Pi, is a member of the Lawrence High School faculty.

* * *

And off to St. Louis — or rather to Florissant, Mo. — on Tuesday was Mrs. Kent Morgan. Mrs. Morgan will be the guest of her son-in-law and daughter, Mr. and Mrs. Rex Olsen (Melinda Morgan) and their children, grandson Kent—and a brand new granddaughter, Kristen.

Mr. Morgan will join the family circle this weekend and accompany Mrs. Morgan home.

Mrs. Morgan, by the way, is just home from Washington, D.C. where she attended the national convention of Pi Beta Phi where she was re-elected to the sorority's Grand Council, and named representative to the National Panhellenic Council.

It goes without saying that while in Washington Mrs. Morgan also visited her brother and sister-in-law, Congressman and Mrs. Philip Weaver, and their family.

* * *

Back to the guest book long enough to tell you that Miss Mary Mueller of Ames, Ia., spent several days last week as the guest of Miss Mary Thorpe, daughter of Dr. and Mrs. Norman Thorpe. Last Thursday Miss Thorpe and Miss Mueller drove to Blackwell, Okla., where they were attendants at the wedding of a Cottey College (Nevada, Mo.) classmate, Miss Vicki Titten.

Miss Thorpe, so we hear, will attend the University of Nebraska this year.

Morning Ceremony

At a 10 o'clock morning ceremony on Saturday, July 21, Miss JoAnn Adams, daughter of Mr. and Mrs. Francis C. Adams, became the bride of Don A. DeBard, son of Mrs. Edith DeBard of Lebanon, Ind. The service was solemnized by the Rev. Paul J. Rutten at Sacred Heart Church, and Marte Hassel, organist, played the wedding music. The vocal soloist was John Churchill.

Wearing sheaths of orchid-toned silk organza fashioned with petal overskirts were Mrs. William F. Kapke, as the matron of honor; Miss Patricia Walczyk, the maid of honor; and the bridesmaids, Miss Roxy Broshar, Jamestown, Ind., and Miss Mary Ann Pratt. They carried nosegays of white carnations and orchid-tinted daisies.

Rudy Broshar of Jamestown, Ind., served as best man, and the ushers were Jerry Randel, Thorntown, Ind.; Jerry Mitchell, Crawfordsville, Ind.; and Thomas Beck.

The bride's gown of white, handclipped Chantilly lace and silk organza was designed in the colonial mode. The long-sleeved bodice of lace was completed by a jeweled Sabrina neckline, and the bouffant organza skirt was trimmed with fabric roses and draped at the hemline to reveal an underskirt of the lace. Her illusion veil was held by a crown of lace and pearls, and she carried white roses and carnations in a cascade bouquet.

Mr. and Mrs. DeBard will make their home in Lebanon, Ind.

Betrothal Revealed

Mr. and Mrs. John F. Bartels of Tobias this morning are announcing the betrothal of their daughter, Jean, to Gary Condon, son of Mr. and Mrs. Marion Condon of Aurora.

Plans are being made for a wedding on Nov. 18.

The bride-elect is a former student at the University of Nebraska, where her fiance is a senior.

Dress Comfortably

BRING THE WHOLE FAMILY!

West Van Dorn Near Pioneers Park

HE 5-9821 HE 5-4155

Dear Abby

Abby Van Buren

DEAR ABBY: We live in a middle class neighborhood. We all own our own homes and work for a living. We awaken about 6:30 or 7 a.m. except for one neighbor who lives next door to me. He is up watering his flowers or washing his car at 5:30! He mows into our property (right under my bedroom window) and sings or talks to his wife, who is in the house. My husband works nights and doesn't get home until about 2 a.m. (which they know). What is the polite way to approach this problem? Or should we call in the law?

DISTURBED

DEAR DISTURBED: The "polite" approach is to call on them and tell them they are disturbing you. If they are considerate, peace-loving neighbors like yourselves, they'll accommodate you and start their day an hour later. If you want to "call in the law," you'll have to prove that 5:30 a.m. is an unreasonable hour to be up and at 'em. And that won't be easy.

DEAR ABBY: My mother is a 50-year-old widow. Dad left her comfortable but not wealthy. This past year she took a job to keep occupied. The past three months a married man ("family friend") has been coming by every morning to drive her to work. (HIS place of work is in the opposite direction.) He also brings her home every evening. His name has come into her conversation frequently of late. Mother is a good woman but quite gullible. I want her to keep her name clean. How can I tell her that even though there is probably nothing wrong, it looks bad?

MARRIED DAUGHTER

DEAR DAUGHTER: A mother-daughter talk is in order. This time the daughter should recite the facts of life. Tell your mother that although the "family friend" may only furnish transportation, he could be taking her reputation for a ride.

CONFIDENTIAL TO LIBBY: When a man tells you he isn't good enough for you, believe him. He knows more about himself than you do.

How's the world treating you? For a personal, unpublished reply, send a self-addressed, stamped envelope to ABBY, care of this paper.

It Seams To Me

Questions and Answers

Patricia Scott

A reader writes "how on earth have you acquired such a wide knowledge of the minor, but important details in finishing a garment so that it looks professionally done?"

The answer is that the knowledge was acquired 1) by studying designing and clothing construction and 2) by 13 years of experience while working in the United States and abroad for top manufacturers, designers and magazines.

Q. Please tell me how to alter (enlarge) a flared skirt pattern for my chubby size daughter.—Mrs. S. V.

A. Following the diagram, divide your skirt front and back pattern into thirds at the waist and hem edges. Starting at the waistline, slash down the skirt to ½ inch of the hem edge. Spread the slashes the necessary amount, with both slashes equally spread. Be sure the bodice waistline and skirt waistline are the same.

Q. Can you tell me where I can obtain a pattern for trapunto quilting?—Mrs. J. H.

A. All pattern counters in department stores have these. First look in any pattern book under "needlework." If you don't find any you like, ask the salesperson to show you the catalogue which is completely devoted to all types of needlework transfers such as trapunto, cross-stitch, smocking, etc.

Q. Please explain how to "peg" skirts. I have full hips, but very thin legs. My dresses and skirts hang like bags around the thigh and calf areas.—Miss A. F. C.

A. Starting from the hip line, taper the seam line right down to the bottom edge. Do this gradually. Bring the stitching line in, giving you a deeper side seam and tapering or pegging the skirt. Remember that if you peg the skirt too much, the narrow bottom will accentuate your full hips, making you look like the broad side of a barn.

Q. I see very expensive jackets with rounded patch pockets that have no stitching. At least, the stitching doesn't show. How in heaven's name can you do this? I always top stitch the pockets on but they don't look half as nice. Mrs. B. W. H.

A. The better manufacturers sew the pockets on by hand. Pin the pocket in place and simply slip-stitch it to the jacket with tiny stitches. But before doing this, be sure your pocket is completely finished and pressed, with no ripples around the edges.

Q. I love dresses with high draped or cowl necklines. But when I make them out of shantung or similar crisp materials the folds stick out instead of draping softly. Why is it that expensive ready-made dresses do not do this? — Mrs. L. L. McC.

A. Better dress manufacturers use this little trick: Take a strip of ribbon or bias binding about three inches long. Buy a weight the size of a penny, or, use a penny, and cover it with fabric. Stitch the covered weight to the end of the binding and tack the binding to the edge of the neck facing. The weight is just heavy enough to keep the neckline in place without pulling it down too much, nor will the neckline pop out. (See illustration.)

Pre-Tractor Day Activity Draws Many

The activity at the University of Nebraska tractor testing site resembled the traditional excitement of the raising of a circus "Big Top" Wednesday.

Spectators gathered to watch as agricultural engineers drove tractors into position for today's big event.

At 9 a.m. this morning, the Eleventh Annual Tractor Day will begin at the College of Agriculture.

Wednesday, peaceful campus life was interrupted as tractors paraded through campus streets on the way to the tractor testing laboratory.

At the test site, construction workers were putting the finishing touches on tilt-up feedbunks. A fenceline bunk for use with a auger feed wagon and a bunk that uses a mechanical auger were constructed. The feedbunks provide an economical and efficient method of cattle feeding.

A team of horses was waiting to demonstrate the progress of American agriculture. They will demonstrate the advances in mechanical technology as they work a horse drawn piece of equipment while a remote control tractor performs without a driver.

Largest Tractor

The largest farm tractor in the world was also being prepared for a demonstration as were the other 4 wheel drive tractors that will someday be the workhorses of agriculture.

Spectators were particularly interested in an experimental turbine tractor with hydrostatic drive. The fiberglass skin tractor has a hydrostatic transmission and can burn any liquid fuel.

Tractors could be seen all around the circular tractor testing course. Engineers were inspecting one of the 4 foreign models that were displayed with 21 new American models.

Farm equipment including the new till-plant machinery were receiving the attention of farm news reporters. The automatic feed mixing and grinding system and a method of automatic irrigation were also under close observation.

Tractors getting into position for big day.

Chicks On Farms May Drop 24 Pct.

The number of chickens raised on Nebraska farms this year is expected to be 24% below last year, the State-Federal Dvision of Agricultural Statistics said.

The preliminary estimate of 7,516,000 chickens is the smallest number ever raised in Nebraska since records were kept and is less than 20% of the record high of 38.5 million raised in 1943.

The estimate compares with 9,889,000 chickens raised in 1961 and the 10-year average of 15,755,000.

Pint Of Gas Powerful As Dynamite Charge

A pint of gasoline mixed with air has the power of 11 pounds of dynamite.

University of Nebraska Agricultural College safety experts said it's something for farmers to keep in mind when fueling tractors.

This is national farm safety week.

Construction Of Dam 14 Given Preliminary Green Light

The Salt-Wahoo Watershed District Wednesday gave the U.S. Army Corps of Engineers a preliminary green light to proceed with its plans to construct Dam 14 despite protests from some Emerald-area residents.

Action on a motion to definitely approve the site, construction plans and the recreational pool design was delayed until the board's next meeting Aug. 15.

Wednesday's watered-down resolution authorized the Corps only "to proceed with planning and studies on Site 14."

Vote on the action was 7-4, the opponents generally favoring immediate approval of the design plan.

In an effort to calm protests, Salt-Wahoo's resolution noted that the preliminary recreational boundaries are "maximum limits subject to further study and possible reduction."

Board members generally agreed that the month's delay was necessary from a public relations standpoint.

Robert Crosby, Salt-Wahoo's general counsel, presented the board with 3 additional petitions protesting the dam's location.

Economic Interest

They included signatures of about 100 persons who claimed an "economic interest in the area" and some 50 persons who feared tax losses for the Malcolm rural fire protection district.

Petitions containing 128 signatures had earlier been presented at a public meeting in Emerald last week. They included 113 members of the Zion Lutheran Church.

Director Byron Dunn told the board that it must consider "what would do the most good for the greatest number of people." He favored immediate dam site approval.

'Necessary Part'

Earl Luff called Dam 14 "a necessary and important part of the over-all project," and Nathan Gold referred to it as "an essential part" of the Salt-Wahoo program.

L. K. Emry urged immediate approval in a motion which noted that "general benefits (of the dam) outweigh the factors of protest."

Salt-Wahoo General Manager Hal Schroeder pointed out that the protesting church is "outside the reservoir area by a considerable distance." Twelve to 15 families are directly affected by the dam, he said, and the landowners directly concerned total only 28.

State Game Commission Director Mel Steen said the dam would result in "economic impact all to the good" for the Emerald area.

In other action, the board unanimously approved the Upper Salt Pilot Project land acquisition agreement reached earlier this month by Salt-Wahoo representatives and the Lancaster Soil and Water Conservation District.

Comprehensive Traffic Study Recommended

The City-County Planning Commission Wednesday recommended a comprehensive origin-destination study of traffic in the Lincoln area be made.

The commission recommended to the City Council that the state highway department be requested to make such a study using available federal planning funds.

Eldridge Lovelace, a Harland Bartholomew planning consultant to the commission, said such a comprehensive origin-destination study could be projected to 1980 in relation to land-use planning and also to determine if major highways and arterials in the area will be adequate for future traffic needs.

"The last such study was made in 1944," Lovelace said. "Another study is needed to determine the major traffic corridors that will be needed in the Lincoln metropolitan area by 1980."

Several origin-destination traffic studies have been made in recent years for limited areas, but no overall study.

Lovelace also suggested that the commission as a joint city and county agency promote efforts to designate and obtain areas for wooded and wildlife preserves as outlined in the comprehensive regional plan.

★ ★ ★

Denial Of Car Race Track Suggested

The City-County Planning Commission recommended denial of a special permit for a proposed stock-car race track southwest of Lincoln following public hearing Wednesday.

Lincoln Speedways proposed a 160-acre site located 2½ miles east of Denton and approximately 4 miles west and 3 miles south of Lincoln's corporate limits.

Commission action noted the site is located on a county paved road leading through the Yankee Hill district and cannot be easily reached from a major highway.

Petition Presented

A petition signed by some 60 residents of the area opposing the track site was presented. Representatives of Trinity Chapel also appeared in opposition.

The commission tabled the application of Williams Nurseries to construct a lath house near 49th and Francis.

In the tabling action, the commission noted Williams Nurseries had not conformed with two previously-granted special permits and requested the applicant to report on the matter.

Owners Opposed

Three adjoining property owners appeared in opposition to the Williams' application, contending the structure would adversely affect residential property.

Other commission action:

—approved final plats of Randolph Terrace 5th Addition, a replat at 38th Street Court and Eastborough 5th Addition, a subdivision at West Rio Road and Glenhaven Drive.

—denied preliminary plat of Sievers Heights, a plat adjoining Highway 77 near the old Turnpike. Cited were sewer, water and school problems. (Recommendation goes to County Board.)

—approved vacating of north-south alley between Dudley and Starr, 66th and 67th.

—approved vacating of Cotner Blvd. between Antelope Creek and Antelope Creek Road. (As requested by Park Department, the unopened street would become part of Eden Park.)

Minimum Wage Report Turned Over To Martin

A report that minimum wages set by the U.S. Labor Department on a Valparaiso sewer project were $2.46 per hour higher than the prevailing wages in that Saunders County community has been turned over to Rep. Dave Martin (R-Neb), State Sanitation Director T. A. Filipi reported Wednesday.

Filipi said the labor department on Feb. 16 set a $4.01 per hour rate on the Valparaiso job, compared to what Filipi said was a $1.55 hourly prevailing rate in the area.

Under the Davis-Bacon Act, the federal government sets minimum wage scales for federal aid projects, based on prevailing wages in the area.

Filipi said his department's chief concern, however, is the length of time it takes to get federal wage determinations. The State Health Board decided recently to carry this complaint to members of the Nebraska congressional delegation

DID YOU KNOW THIS? IT'S A FACT:

West Germany leads in use of the Kiel Canal, a 61-mile short cut between the North and Baltic seas. Other flags frequently seen are those of Russia, Finland, Sweden, Norway, Britain, the Netherlands and Poland.

☆

Silver dollars, although popular in some Western states, are rarely used in the East. A Brooklyn, N.Y., gas station attendant called police when a Wyoming motorist tried to pay him with a silver dollar.

☆

The industry-sponsored program of growing trees as crops under multiple-use forest management practices gained nearly a million acres in the first four months of 1962.

☆

Rome's famous Colosseum withstood nearly 2,000 years of earthquake and plunder, but now is threatened from motor vehicles. To preserve the stone structure, Rome has restricted traffic around it and inserted steel bars into weakened walls and columns.

☆

Near the end of the 17th Century, the monks at St. Bernard acquired dogs. The animals guarded the monastery, turned spits in the kitchen and carried supplies. About 1750 the monks began to train the dogs for rescue missions.

DAILY CRYPTOQUOTE

Here is a practical little game that will give you a message every day. It is a numer puzzle designed to spell out your fortune. Count the letters in your first nam ' ne number of letters is 5 or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner o the rectangle and check every one of your key numbers left to right. Then read the message ne letters under the checked figures gives you. Hyland And Schwartzkopf Into State Women's Semis

Omaha (AP) — The Nebraska Women's Golf Tournament took an exclusive turn Wednesday.

Only the royality made it into the semifinals.

The defending champion, pert Mrs. Paul Hyland of Lincoln, blasted aside another queen, Mrs. Bruce Gilliland of Kimball, who has ruled as champion of the sand greens tourney for 5 straight years.

It was a 6 to 5 triumph for Mrs. Hyland.

Former title holders scored like this:

Mrs. Sam Schwartzkopf of Lincoln, 6 and 4 over Mrs. Alvin Berger of Omaha;

Mrs. Lawrence Thomas of Omaha, 2 and 1 over Mrs. Robert Mahoney of Omaha.

Miss Nancy Young of Omaha, 3 and 1 over Mrs. W. L. Sibley of Lincoln.

In today's semis, Mrs. Hyland meets two-time champion Mrs. Thomas and Mrs. Schwartzkopf, runner-up to Mrs. Hyland in 1961, meets Miss Young, who won the title in 1960.

The two Lincoln aces will be going against two Omahans who learned their golf on the Omaha Country Club course over which this year's tourney is being played.

Favored in the semis are Mrs. Hyland and Miss Young.

Mrs. Hyland and Mrs. Thomas last met in 1957 and Mrs. Hyland defeated the Omahan in 3 extra holes at the Lincoln Hillcrest Country Club. The Lincolite won the title that year.

Mrs. Schwartzkopf and Miss Young likewise are former foes, Miss Young having defeated the Lincoln star in the semis of the 1960 meet at Alliance. Miss Young was the champ that year.

In Wednesday's play Mrs. Hyland was at the top of her game on the first 9 against Mrs. Gilliland and had a 6 hole lead with an even par 37. She was 3 over par at the end of the match.

Miss Young was 2 down to Mrs. Sibley at the end of the first 3 holes, then won No. 5, 7 and 8 for the lead. Two pars on No. 16 and No. 17 ended the match in the Omahan's favor.

After taking a 3 up lead on 5 holes, Mrs. Thomas faltered and Mrs. Mahoney evened the match at the end of 9. Mrs. Mahoney took a lead when she birdied No. 10 but lost out when Mrs. Thomas took No. 16 and No. 17.

Mrs. Schwartzkopf went her merry way by taking No. 2, 3 and 4, then winning No. 8, 9 and 10 and No. 12, 13 and 14 from Mrs. Berger.

Results of lower flights: (All players are Omahans unless otherwise designated)

CHAMPION CONSOLATION

Mrs. George Abel, Lincoln, def. Mrs. Hugo Schanabel, 3-1; Mrs. Don Payne def. Mrs. William Lilliott, 7-5.

Susan McKee def. Margarte Jolley, 9-7. Christie Schwartzkopf, Lincoln, def. Jane Drew, 7-6.

CONSOLATION

Finals—Mary Gatewood def. Pam Ledbetter, 4-3.

—NATIONAL SHOWDOWN NEARS—

O'Dell Hurls SF Past Colts, 3-2

Houston (AP)— Left-hander Billy O'Dell, with help from Don Larsen and Stu Miller, beat the Houston Colts 3-2 Wednesday night as the San Francisco Giants stayed one game behind Los Angeles in the National League race.

The Giants will carry a 4-game winning streak into Friday night's opener of a 3-game showdown series with the league-leading Dodgers at Los Angeles.

Jim Davenport, with his 12th homer, Chuck Hiller and Tom Haller drove in the runs for O'Dell, who gained his 13th victory against 8 defeats. Jim Golden (5-9) was the loser.

Larsen took over from O'Dell in the 7th when the Colts loaded the bases on two walks and a single by Bobby Lillis. He got Jim Pendleton on an outfield fly to end the threat.

In the 8th, with the Giants leading 3-1, Larsen's arm stiffened and Miller took over. He was nicked for Bob Aspromonte's 11th homer before keeping the Colts under control the rest of the way.

Davenport homered in the first inning for the Giants and Hiller's single drove in another run in the second. The eventual winner scored in the 6th when Felipe Alou tripled and scored on Haller's single.

Athletics Decision Indians

Kansas City (AP)—Diego Segui gave the hard-hitting Kansas City Athletics something they have sorely needed —good pitching—and the A's defeated the Cleveland Indians 5-4 Wednesday night after nearly blowing the game in the 9th.

Segui (7-5), in his first start against the Tribe, held Cleveland to 3 hits over 8 innings.

He went out for a pinch hitter in the 8th.

ABL WILL OPERATE IN 1962

DUGOUT CONCENTRATION

With the enemy sacks loaded, Oriole Manager Billy Hitchcock, left, maneuvers his chaw while coach George Staller seeks relief by blowing a bubble of bubble gum.

Abe Saperstein Might Sue NBA

. . . DENVER NEW MEMBER

Chicago (AP) — The one-season old American Basketball League rebounded scrappily from the brink of predicted demise Wednesday, announcing it will operate in 1962-63 as a 6-team loop and may sue the rival National Basketball Association.

ABL commissioner Abe Saperstein, owner of the Chicago Majors, emerged from what he described "an enthusiastic and harmonious" two-day session of his reeling league and asserted:

1. Two holdover members, the New York Tapers and the Hawaii Chiefs will shift to Philadelphia and Long Beach, Calif., and Denver, Colo., will become a new member.

(Rounding out the 6-team lineup are Saperstein's Majors, the Kansas City Steers and the Pittsburgh Rens, all charter members in last season's first ABL season).

2. The ABL will sue the NBA if the Cleveland Pipers, stormy petrels of the ABL's inaugural season, are accepted as a new member by the NBA as scheduled next Monday.

Saperstein's fighting statement came amidst flying rumors the ABL would collapse because of Cleveland's jump to the NBA and announcement the San Francisco Saints were quitting the ABL. The erstwhile Philadelphia Warriors of the NBA are shifting to San Francisco next season.

Concerning the Cleveland Pipers, whose owner George Steinbrenner almost quit the ABL during last season, Saperstein declared:

"It came to my attention earlier today that the NBA has scheduled a meeting of its board for next Monday to welcome the Cleveland club into its fold. If that is done, they also will welcome a law suit."

Saperstein simultaneously sent telegrams to NBA commissioner Maurice Podoloff in New York and Steinbrenner in Cleveland warning that the ABL still regarded the Cleveland Pipers as their member.

His wire to Podoloff said: "we have completed arrangements today for the 1962-63 season for the American Basketball League and these plans include Cleveland and all its personnel, including Jerry Lucas. Do not continue your negotiations in the Cleveland territory or legal action will be taken to prevent the National Basketball League from destroying our league and for any damages sustained."

Saperstein, little major domo of the independent Harlem Globetrotters, predicted his league still has a future despite opening year financial losses he conceded were "considerable."

Joe Koppe, Earl Averill Aid Angels

Los Angeles (AP) — Light hitting Joe Koppe doubled in two runs in the second inning and pinch hitter Earl Averill smashed a 3-run homer in the 7th Wednesday night as the Los Angeles Angels blanked the Baltimore Orioles, 5-0.

Bob Rodgers doubled in the second, Tom Bridges walked and Koppe, the shortstop who is 8th in the batting order, doubled both home.

In the 7th Felix Torres led off with a single and Burgess reached first on Johnny Temple's error which could have been a double play. Manager Bill Rigney sent in Averill to bat for starter Don Lee, who had given up only 4 hits, and the maneuver paid off when Averill hit a pitch into the left field stands for his 4th home run of the year.

Baltimore's starter, Jack Fisher, gave up only 5 hits, and aside from the second inning and then the 3rd, when he walked two, he retired the Angels in order until the 7th.

—COLLEGIANS PREEN FOR PACKERS—

Chicago Bears Scuttle College All-Stars, 24-7

Rensselaer, Ind. (AP)—The Chicago Bears using first stringers only sparingly, smashed the College All-Stars 24-7 Wednesday.

The game served as a tune-up for the collegians in their All-Star clash at Soldier Field Aug. 3 against the Green Bay Packers, National Football League champions.

The Bears had a fairly easy time and the All-Stars did not score until the final seconds.

It was then that they moved 80 yards in 18 plays with John Hadl of Kansas drilling the final 7 for the touchdown. Greg Mather of Navy booted the point just as the gun ended the game.

It was only the third sustained drive that coach Otto Graham's squad could pull off. Hadl's passes to Lance Alworth, Arkansas; Ernie Davis, Syracuse; and Charles Bryant, Ohio State, carried the scoring attack along.

In the third period, after Bobby Joe Green punted out of bounds only 12 yards for the Bears, the collegians moved 20 yards to the Bear two before being stopped. Leading this push was quarterback Roman Gabriel, North Carolina State, and fullback Bob Ferguson, Ohio State.

In the second quarter, Henry Rivera of Oregon State intercepted a pass and sprinted 97 yards across the goal line but the play was nullified by a penalty.

In the same period, the All-Stars also got off a sustained march of 59 yards in 13 plays with a backfield of Hadl, Davis, Earl Gros, of Louisiana State, and Leroy Jackson, Western Illinois. Davis was the big gun in this thrust, gaining 28 yards in 3 carries, but it ended on the Bear 20.

Bears Score Early

The Bears scored in the early first period, with Charlie Bevins hammering the final 6 yards for the first of his two touchdowns. The drive covered 36 yards in 7 plays with Bevins and Bill Brown the main gainers. Roger LeClerc booted the first of his 3 extra points. He also added a 45-yard field goal in the final quarter.

The Bears scored their second touchdown for a 14-0 halftime lead early in the second quarter, going 60 yards in 8 plays. Bill Wade's 16-yard pass to John Adams, 22 to Johnny Morris and 10 to Willie Galimore, set it up. Rick Casares, barreled the final 3 yards.

Bevins scored again on a 20-yard pass from Dick Norman in the 4th period. It ended the 78-yard drive in 16 plays.

The Bears outgained the All-Stars rushing 115 yards to 83, and passing 131 to 81.

All-Stars	0	0	0	7	7
Bears	7	7	0	10	24

Bears — Bevins, 5, run (Le Clerc kick)

Bears — Casares, 3, run (Le Clerc kick)

Bears — Bevins, 20, pass from Norman (Le Clerc kick)

Bears — F. G. LeClerc 45

Stars — Hadl, 7, run (Mather kick)

TRIPLES UP GERRY'S PAST HASTINGS, 2-0

Hastings — Gerry's came through with two runs in the top of the 10th innings to back up a superb 4-hit pitching job by Bob Hergenrader as he shut out Hastings, 2-0, at Duncan Field Wednesday night.

Two triples were the key hits for the Lincoln crew as Rich Schwabauer's 3-bagger started things going. Pat Gorham bunted Schwabauer home for the first run.

Steve Nimocks then plated Jim Zangari with another 3-base hit and this was all the runs Hergenrader needed.

The pitching star for Gerry's struck out 15 while extending his record to 7-4 for the season.

Hastings had a rally in the bottom of the 8th quelled when Dick Clemens' perfect peg from centerfield saved a run after Hastings had put men on second and third and a Hastings batter drifted a potential sacrifice fly to centerfield.

ROLLER HOCKEY BEGINS

Eleven teams literally "rolled" through the first round of play in the round-robin National Roller Hockey competition of the American Roller Skating Championships at Pershing Auditorium Wednesday.

The sport, played for the second year on a national scale, has two variations — "ball and cane stick" and "puck and stick."

The first is similar to field hockey in that a black rubber field hockey ball about 4 inches in diameter is used on the roller rink floor. Shorter curved sticks present a sharp contrast to the long, angled sticks used by the puck players.

Both games employ the same rules, but the puck and stick game has a plastic puck much like ice hockey pucks in shape.

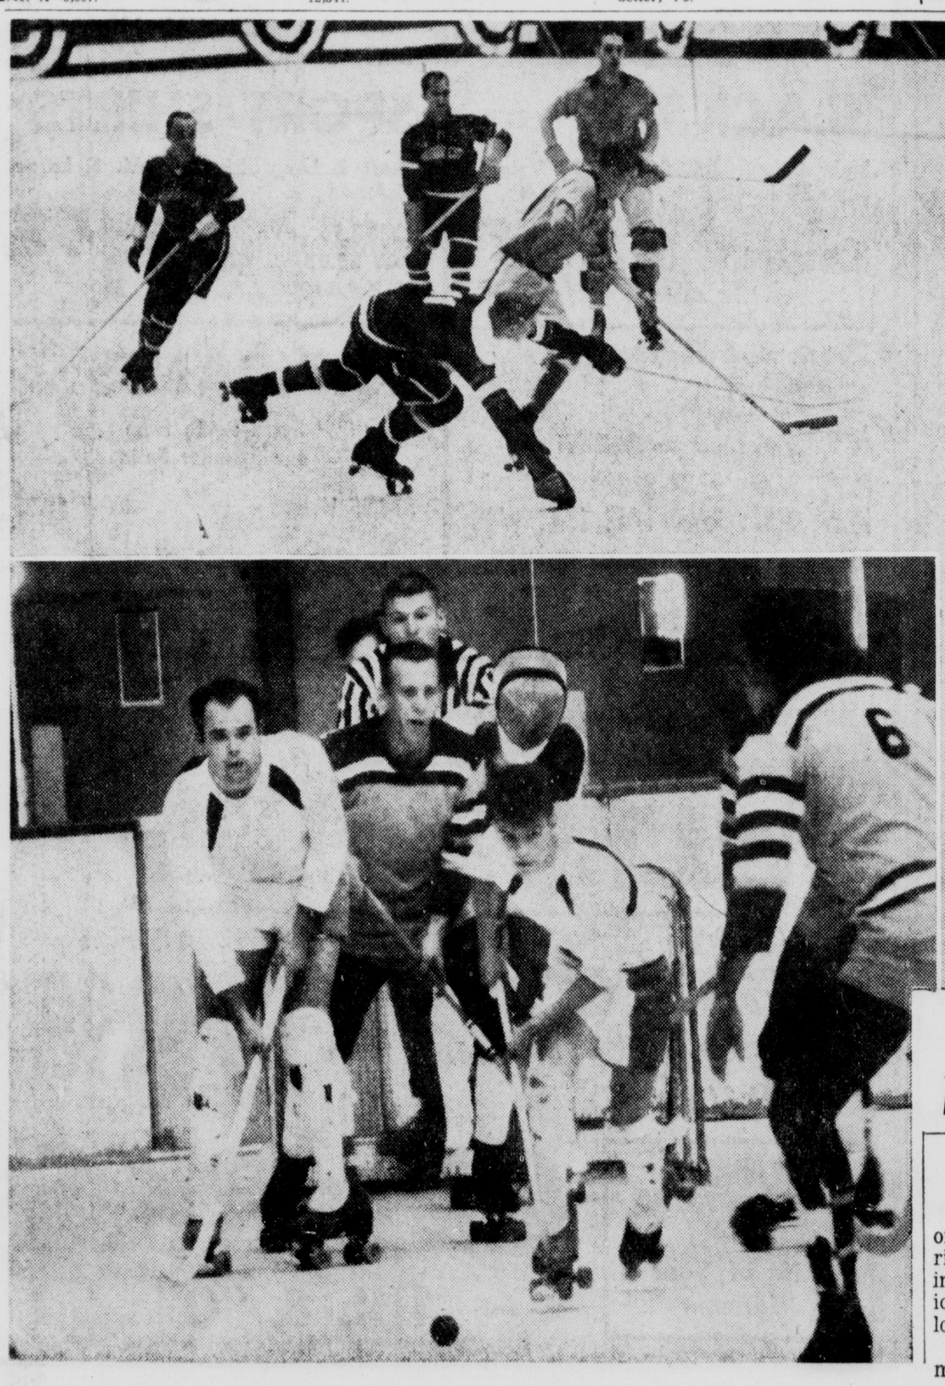

In the ball hockey division, Lorain, Ohio, blanked Kansas City, 10-0, before falling to Brook Park, Ohio, 2-0 in the second game of the tourney.

Lubbock, Tex., paced by Dickey Sisson's 4 goals in the second period, eased past another Texan team, Midland 11-3, as all 5 teams in the ball division saw action.

Three single games highlighted the opening of puck hockey competition with Levittown, Pa., stopping Van Wert, Ohio, 5-2 in the evening finale.

In earlier games Motor City edged Ft. Wayne, 5-4, and Detroit slipped past Middletown, Ohio, 3-1.

Today's pairings feature twenty games starting at 8 a.m., then running at 40-minute intervals, alternating puck and ball competition.

Hallam Legion Tips Crete, 1-0

Hallam scored a lone run on a hit, an error and a sacrifice fly in the top of the 7th inning to hand Crete's American Legion team its second loss of the season, 1-0.

Neither team could muster more than one hit.

Hallam's tally came when Terry Hoy had doubled, taken third on an error and raced home on Lee Schlitimeyer's sacrifice fly.

Yankees Manage Split With Boston Red Sox

. . . WILSON WINS OPENER

New York (AP) — Earl Wilson beat the New York Yankkees 4-2 Wednesday night for his first victory since he pitched a no-hitter on June 26. The Yankees came back to split the twi-night doubleheader, winning the nightcap 6-4 on Hector Lopez's two-run pinch single in the 8th inning.

The split gave the league leaders a 10-16 won-lost record for doubleheaders this season. They have won only two, split 6 and lost 5.

Wilson held the Yankees to two runs on homers by Mickey Mantle (No. 20) and Tom Tresh (No. 8), but he needed 8th inning help from big Dick Radatz.

The relief pitcher got Roger Maris on a foul to the catcher with the bases filled in the 8th, and put down a two out Yankee rally in the 9th.

Boston picked up a run in the 3rd inning of the opener on Billy Gardner's triple and an infield out, and 3 in the 4th, after Yankee 3rd baseman Clete Boyer had made a rare error. The Red Sox followed the miscue with 3 singles, by Frank Malzone, Eddie Bressoud and Gardner, and a sacrifice fly by Gary Geiger.

Lopez pinch hit for Jack Reed in the 8th of the second game with the score tied 4-4, the bases full and two out. He slapped a pitch by Mike Fornieles to right for two runs.

Fornieles opened the inning by walking Tresh, who was sacrificed to second by Bobby Richardson. Maris was walked intentionally. Tresh and Maris advanced as Joe Pepitone grounded out. Yogi Berra was purposely passed to fill the bases.

Senators Edge By White Sox

Washington (AP)—Washington scored 4 runs in the first two innings Wednesday night, then held off the Chicago White Sox for a 4-3 victory.

A double steal was the key play in the Senators' two-run first. Don Lock homered in the second, when Washington got the other two.

The early-inning scoring stymied Juan Pizarro's bid for his 6th victory of the month. His only previous July loss also was at the hands of the Senators, a 1-0 defeat in which Lock supplied the winning home run for Washington.

Claude Osteen won his 5th for the Senators, giving up 9 hits.

Banks Hits Two HR's In Cub Win

Chicago (AP) — Ernie Banks hit his Nos. 25 and 26 home runs in successive times at bat Wednesday as the Chicago Cubs defeated Philadelphia 5-2 to win a 2-1 series edge. It was the Cubs' 9th trimming of the Phillies in 14 games this season.

Starter Bob Buhl, with Dave Gerard's hitless relief help in the final two and one-third innings, won his 7th game of the season.

Banks' first homer followed George Altman's leadoff double in the second. The Chicago first baseman stroked his second off loser Dennis Bennett with one out and the bases empty in the 4th.

The Cubs tagged Jack Hamilton, Bennett's successor, for their final two runs in the 8th. Ron Santo's sacrifice fly scored Ken Hubbs, who had tripled. Andre Rodgers' 3rd straight single sent Altman who had singled, across with the second score.

Standard Reliance Is Elks Winner By 5-3

Standard Reliance barged to a 4-run first inning to set up a 5-3 victory over Gerry's in Elks League play Wednesday night.

Jim Munford and Dean Anderson provided the power for Standard Reliance as each belted 2-run homers in the opening frame.

Munford later came on in relief for Standard Reliance and drove in another run with a single in the 7th.

Kansas City Athletics owner Charles O. Finley (center) checks the sore right elbow of $125,000 bonus pitcher Lew Krausse (left) and the cracked rib of pitcher Dave Wickersham when the 3 met at Mayo Clinic in Rochester, Minn. Krausse began examinations, while Wickersham is expected to rejoin the A's this week. Finley is recuperating at the clinic after on operation on his feet to remove bone spurs.

Brave Home Runs Bury Mets, 11-5

. . . ADCOCK, MATHEWS STAR

Milwaukee (AP) — Joe Adcock crashed a grand slam homer and a long solo shot and Eddie Mathews contributed a pair of two-run homers Wednesday night, powering the Milwaukee Braves to a 11-5 victory over the New York Mets.

Adcock, who hit his 17th homer in the first, moved up in the all-time grand slam derby by sending a towering drive some 400 feet to left with the bases loaded in the 8th.

The grand slam — on New York southpaw Vinegar Bend Mizell's first pitch to him — was his second of the season and 10th of his career. He took over 4th place among bases-loaded home run hitters. Gil Hodges of the Mets leads the list with 14, while Ralph Kiner and Rogers Hornsby each had 12.

The homer was the 5th for Adcock since the Braves launched a 5-game winning streak last Saturday.

Adcock and Mathews enabled southpaw Bob Hendley to cruise to his 7th victory in 14 decisions as the Mets suffered their 10th straight setback. Hendley was lifted for a pinchhitter with the Braves ahead by 9 runs in the 8th and Hank Fischer finished up, allowing 4 runs in the 9th, 3 of them on Frank Thomas' 19th homer.

Mathews hit his 19th homer with Lee Maye aboard in the first and then lined another drive into the bleachers in right center with Roy McMillan aboard in the 5th. Both drives were off New York starter Roger Craig who absorbed his 16th loss as compared with only 5 victories.

Shrine Profiles

Bill Dunn, O. North

It's no wonder Bill Dunn played football for 4 years at Omaha North.

The 230-pound tackle has been big enough to play for quite some time. This summer he'll see action in the line for the North Shrine Bowl team.

Dunn

Bill, a vital defensive cog on North's unbeaten power last year, is a tackle and second only to Omaha Tech's Lynn Harris (240) in size on either Shrine team.

He was a Sunday Journal and Star all-stater last fall. He rates the North-Prep game last year as his top sports thrill.

Dunn could put his number 62 in the South backfield frequently.

Bud Hackbarth, Fairbury

Bud Hackbarth doesn't carry much weight for a lineman but he handles his 170 pounds amazingly well.

He played at Fairbury High School under South head Coach Cliff Dale.

Hackbarth

Bud was an all-Twin Rivers Conference guard last year and played linebacker on defense. His sports idols naturally are professional linebackers—Bill George, Chicago Bears, and Wayne Walker, Detroit Lions.

His top sports thrill was defeating Southeast in 1960 to win the Mid-East championship.

Bud is working on his dad's farm this summer and collects guns for a hobby. He will wear No. 72.

Whitey Ford of the Yankees was the first left-handed pitcher in American League history to win 8 games in one month.

Twins Nip Tigers On Rollins Hit

Minneapolis (AP) — Rich Rollins delivered a line single to right-center to score the winning run in the bottom of the 9th inning as the Minnesota Twins stormed back to nip Detroit 7-6 Wednesday night.

Rollins' blow was the 3rd straight single by the Twins in a last-ditch comeback. Just before Rollins' hit, Vic Power had poked a single to center to tie it 6-6.

The Tigers had rallied for 3 runs in the top of the 9th to go ahead 6-5. A 390-foot two-run homer by Steve Boros was the big blow in Detroit's surge.

Reliefer Ray Moore (6-3) picked up the victory, while Detroit's Ron Nischwitz (3-2) was charged with the loss, although he pitched to only one batter.

Boros' shot to left-center came after the Tigers had pulled within one run at 5-4 on Al Kaline's sacrifice fly. Billie Bruton, who had singled, was on base when Boros hit his 5th homer of the season off Moore. Chico Fernandez also homered for the Tigers in the 6th, his 13th of the year.

Stan Sets Record, But Cardinals Lose

. . . CRACKS OTT'S RBI MARK

St. Louis (AP)—Stan Musial set a National League record of 1,862 runs batted in with a two-run homer Wednesday night, but Don Drysdale gained his 18th victory of the season as the Los Angeles Dodgers beat the St. Louis Cardinals, 5-2.

Drysdale, only a 4-time loser, was lifted after Julian Javier opened the 8th with a single. With one out Ron Perranoski loaded the bases on two walks but Fred Whitfield popped up. Then Ed Roebuck took over and struck out pinch-hitter Charley James.

Drysdale's victory was his 8th straight this season, tying the Giants' Billy Pierce for the league's longest streak. The big righthander, who gave up 8 hits, is the major league's top winner.

The first-place Dodgers broke a 2-2 tie in the 7th inning with two runs off losing pitcher Ray Washburn.

Musial shared the RBI record with the Giants' Mel Ott before Wednesday night's game. The Man's blast, his 14th homer of the season, bounced off a light tower about 85 feet above the playing field.

Roger Sayers Sets Sights On Olympics

Omaha (AP) — Roger Sayers, second-place runner in the 100 and 220-meter dashes in the U.S.-Russia track dual last weekend, has his sights set on the Olympics and a tour of Europe.

First the slight University of Omaha athlete is concerned with the upcoming football season. He's a standout halfback on the Indian squad, despite his 148 pounds on a 5-8 frame.

Sayers said track coaches of the U.S. squad at last week's Palo Alto, Calif., meet "were a little surprised" that he played football because of his size.

City Softball Meet Entries Due Monday

Deadline for entries in the City Softball Tournament will be next Monday.

Tournament action will start Monday, Aug. 6.

Teams entering the open meet will be divided into 3 classes — A, B, and C. Any team may enter Class A, but a tournament committee will review all entries and decide divisional placement.

Any team entering the State Softball tourney is ineligible.

Cincinnati Lambasts Pittsburgh

Cincinnati (AP)—Frank Robinson drove in two runs with 4 straight hits Wednesday night heading a 21-hit Cincinnati barrage that sank Pittsburgh, 13-6.

Bob Purkey had to put down an 8th inning rally but went all the way to nail down his 16th season victory and 8th in a row for the Reds.

Smoky Burgess, onetime Cincinnati catcher, drove in 4 runs for the Pirates with a leadoff homer in the 5th, a 4-base blow in the 8th with a man on base and a scoring single in the 3rd.

Army Hitch No Gravy Train For Cub Catcher

Chicago (UPI)—If you think the Army gives major league baseball players the red carpet treatment, think again says Dick Bertell.

Pfc. Bertell has been only a weekend catcher for the Chicago Cubs most of this season because of his full-time duties as a small arms repairman at Ft. Knox, Ky.

In order for Bertell to play weekend games with the Cubs it was necessary that he work overtime until almost midnight once or twice a week on the Ft. Knox infiltration course.

"It wasn't much fun," recalled Bertell, who recently completed his tour of duty. "After I finished work late Friday I would drive from Ft. Knox to Louisville — about an hour.

Couple Hours Sleep

"I would stop for a couple of hours sleep. Then I would catch a flight to wherever the Cubs were playing."

Bertell had to arrange his own flights, which cost the Cubs an average of $100 per trip. Once he had to charter a series.

It was a race against the clock every weekend.

"I usually arrived just at game time, then Sunday night I would fly to Louisville and drive back to Ft. Knox just in time to answer reveille at 5:30 a.m. I didn't get much sleep."

Still Hitting .300

Surprisingly enough, Bertell said that playing twice a week did not affect his timing at bat. He won at least two games for the beleaguered Bruins with late-inning hits and had a batting average just at .300.

"My defensive play has been hurt the most by not being with the team regularly," said the 26-year-old sophomore.

"I wasn't familiar with the pitchers since I wasn't in spring training with them and as a result I didn't call as good a game as I could."

Head coach Charlie Metro is very high on Bertell, a native of suburban Oak Park, Ill.

Weak Defensively

"Dick is a fine young receiver," said Metro, "He a good hitter and will undoubtedly get better. He needs to work on his defense, but he has a very strong arm and all he needs is more work and experience."

Bertell managed a regimental team in a 10-club intra-baseball league. He also caught for the team and worked out to stay in condition in his spare time.

The result is that despite his Army service he is now the Cubs' number one receiver and ranks as one of the better backstops in the National League.

Jay's Arm Injury Muscular Soreness

Cincinnati (AP) — Doctors have reported there apparently is no serious injury to the right shoulder of Cincinnati Reds' pitcher Joey Jay.

Jay, who had to leave Tuesday night's game with Pittsburgh in the 7th inning because the shoulder on his pitching arm had tightened and become sore, had the shoulder x-rayed at Christ Hospital. Doctors said the ailment appeared to be a muscular soreness.

They expressed belief he would be able to take his next regular rotation pitching assignment. Jay, a 21-game winner with the Reds last year, now has a 14-9 mark for this season.

Living Costs Climb To Record High In June

Washington (AP) — Higher prices for restaurant meals helped boost living costs to a new record in June. Factory workers' earnings also reached a new peak.

The Labor Department, announcing the new figures Wednesday, said higher costs for away-from-home meals and for fresh fruits pushed food costs to a new high.

This pushed the department's consumer price index up one-tenth of 1% in June to 105.3% of the 1957-59 average —meaning the dollar is worth about a nickel less than in the former period.

Robert J. Myers, deputy labor statistics commissioner, said a further slight living cost increase is likely in July. The government index has risen to new highs in 4 of the first 6 months of 1962.

Compared with June last year, living costs are 1.2% higher.

The average weekly wage of the factory worker heading a family of four rose a few cents from May to $85.91, the highest point in history. Myers said the May-June earnings rise was smaller than usual and represented more working time rather than higher pay rates.

Mid-Summer 'Fall Festival' Big Hit

By DEAN TERRILL
Southeast Nebraska Bureau

Sutton—This town's annual festival is a little like the lad who doesn't care what he's called as long as he's called for lunch.

So, even in 90-degree July temperatures, the barbecue chicken, watermelon and hot dogs were just as tasty as if the Fall Festival were really held in fall. The chickens especially—as 3,000 halves were served as a highlight of the Tuesday-Wednesday celebration.

"We used to throw the affair the last part of August, and sometimes we've called it a harvest festival," smiled Earl Vauck, grain elevator operator and general chairman for the sponsoring Commercial Club. "The name makes little difference, though, when there's fun and plenty to eat."

Wrestling matches provided the first part of that combination opening night and scattered throughout the observance were soap box races, diving exhibitions, band concerts and a dance. A parade with the theme of "Nebraska, Where the West Begins," was a Wednesday evening highlight.

The Sutton Garden Club's annual flower show was another feature of the festival, which has been held at least the past 10 years.

STAR STAFF PHOTO

Misnomer overhead, but it's ignored by 4-year-old watermelon lovers, Coleen Finegan and Paul Sheridan of Sutton.

2% Hike Likely In '62 Calf Crop

Nebraska's 1962 calf crop is expected to number 1,737,000 head, the State-Federal Division of Agricultural Statistics said.

This year's number is more than two per cent above 1961 and compares with a 10-year average of 1,685,000.

The record high crops was in 1954 when 1,848,000 calves were born.

The larger Nebraska calf crop is a result of an increase in the number of cows on farms and ranches and an increase in the calving percentage.

Alles Bound Over On Check Charge

McCook (UPI) — Lavern Alles, 27, Holdrege, pleaded guilty in Red Willow County court here to two counts of cashing no account checks.

Alles waived preliminary hearing and was bound over to district court. He was jailed in lieu of $1,000 bond.

Alles is charged with writing two no account checks on the First State Bank of Beaver City, Neb., and cashing them here July 16.

C Of C Votes To Back City Closing Ordinance

Chamber of Commerce directors voted Wednesday to support an ordinance pending before the City Council which would prohibit the sale of a large number of items on more than 6 days a week.

Retail spokesmen said there were no religious or constitutional questions involved in the proposed ordinance. They contended a 6-day retailing week also would limit the need for weekend municipal police services.

Two closing ordinances are pending before the City Council, and the Chamber will oppose one, introduced by Councilman Robert Fulton, at public hearing Aug. 6.

The Fulton ordinance calls for closing by categories of business, while the Chamber-backed plan would ban retail sales of specific types of merchandise.

Attorney Robert Guenzel told Chamber directors the ordinance "exempts everything not specifically listed, does not infringe on the public convenience or necessity, and will do the job."

Disagreement was expressed by Joe R. Seacrest, who suggested the proposed ordinance could be one step toward more restrictive regulation of business activities.

No Stand

Chamber directors also decided not to take a partisan stand on the application of Greyhound Bus Lines to route 5 of its transcontinental buses through Lincoln.

The application is pending before the State Railway Commission.

American Buslines opposes the application.

The Chamber said its only interest was in the best service to all points and that it did not feel it advisable to take sides in a controversy between two companies.

Five Members Of Chicago Family Suffer Injuries

Five members of a Chicago family were injured Wednesday when their car went out of control and rolled over several times in an accident north of Dorchester on U.S. 6.

The father and 3 small children were reportedly thrown from the car.

According to investigating Safety Patrol officers, the car was driven by Edward J. Sutenbach, 41.

All 5 were taken to a Crete hospital where they are in satisfactory condition, according to the patrol.

Sutenbach received a broken right foot and slight head concussion. His wife, Mrs. Audrey Sutenbach, 40, suffered a broken right ankle and cuts and bruises in the accident.

The 3 children, Donald, 8, Paul, 2, and Barbara (no age given) suffered cuts and bruises. All were held at the hospital for treatment, according to the patrol.

Power Request Is Turned Down

State Water Resources Director Dan Jones Jr. Wednesday denied the Wheat Belt Public Power District of Sidney its request for permission to serve an irrigation well belonging to John Treinen and located just outside the Sidney city limits.

Power for the well currently is supplied by the City of Sidney, and Jones held that to transfer the well to Wheat Belt lines would represent unnecessary duplication of facilities.

The City of Sidney, represented by Sidney City Manager Tom Coffey, objected to the Wheat Belt application at a public hearing Monday.

Treinen's home is served by Wheat Belt, his well by the City of Sidney.

Mill Levy For County Roads Is Opposed

A former county commissioner was the only person appearing Wednesday at the public hearing on the proposed 1962-63 fiscal year budget for Lancaster County.

Chris Kuhner, who served on the board for 12 years, voiced support for Acting County Engineer Hugh Dillon's road program, but expressed opposition to the proposed road mill levy.

He suggested that the money be taken out of the county inheritance tax fund since "that fund is for anything which benefits the public."

Commissioner Kenneth Bourne pointed out the inheritance tax money has been earmarked for the construction of the convalescent hospital.

The Commissioners are expected to consider the budget requests this week and must reach a final decision by Aug. 7.

Agreements For Land Purchases Will Be Signed

The State Department of Roads plans to sign project agreements with the federal government soon for purchase of right-of-way and advertising rights for the Interstate Highway between Milford and Grand Island.

Actual land buying in this area is still a few years away, however.

State Engineer John Hossack said the project agreement step is principally a bookkeeping transaction to tie down the funds already earmarked for the projects.

Hossack's quarterly report to the State Highway Commission listed right-of-way between York and Milford, and right-of-way and advertising rights from York to Grand Island as ready for project agreement during the current quarter.

Negroes Ready For Jail

. . . WHEN THEIR DAY OF PENANCE ENDS

Albany, Ga. (AP) — Negroes signed pledges Wednesday night to go to jail as a mass marching demonstration apparently was planned for Thursday after a "day of penance" because of a flare-up of violence.

"At 12:05 Thursday the hour of penance will be over and we must take our stand," said integration leader Rev. Ralph D. Abernathy.

Negroes were handed commitment cards at a church rally after Dr. Martin Luther King Jr. told them, "we can't stop now and we won't stop now."

King, who spent the day in taverns, pool rooms and on street corners urging Negroes to embrace his nonviolent doctrine, declared a 24-hour period of penance beginning at noon Wednesday.

He asked his followers to pray for some Negroes, among a crowd of about 2,000, who Tuesday night tossed rocks and bottles at police officers after a marching demonstration.

The Albany Movement begun about 3 years ago, moved Wednesday night into a highly organized phase of its determined attack on segregation in this southwest Georgia city.

King urged the Negroes to increase their voting strength by registering, to follow a "selective buying campaign" and stay nonviolent.

The crowd at the church was told by Abernathy, "we must go to jail in large numbers."

"I've got to go back," said the Atlanta minister and vice president of the Southern Christian Leadership Conference which King heads.

Abernathy indicated the possibility of simultaneous marches in other parts of the country in support of the Albany effort. He said that if picketers were arrested here, "we will fly people up to Washington and let them picket the White House."

"We've heard from the state house," said Abernathy, referring to Gov. Ernest Vandiver's threat to call out National Guardsmen if necessary for the preservation of law and order here. "Now we want to hear from the White House."

King said he and other adherents to the passive resistance doctrine "abhor violence so much that when it occurs in the ranks of the Negro community, we assume part of the responsibility for it."

SUPRISE! SUPRISE!

Valerie Matthews, 6, Louisville, Ky., enjoys the antics of 13 baby horned toads scrambling over their mother. Mrs. Aloysius, the horned toad, was captured by the child while vacationing in Flagstaff, Ariz., and brought home. Mrs. Aloysius surprised the 4 children of the Matthews family by cropping up with the youngsters.

Laos Recognizes People's Republic

Tokyo (AP) — Pheng Phong Savan, Laos minister of interior, says his government "recognized the People's Republic of (Communist) China only and there is only one China, not two," the New China News Agency reported.

The agency said the minister made the statement in a talk with leftist leaders at Khang Khay, former rebel headquarters.

"It is fully in keeping with the policy of true neutrality of the national union government for it to enter into diplomatic relations with 5 socialist countries," he said.

JFK And Advisers To Discuss Easing Of Test Ban Conditions

Washington (AP) — President Kennnedy will meet with top advisers Friday to consider whether to relax U.S. terms for an atomic weapons test ban treaty with Russia.

Press Secretary Pierre Salinger said Wednesday about 10 to 12 key advisers, including defense and diplomatic officials, will attend the Friday gathering. He described the meeting as one of a series of inside-the-government discussions on how the U.S. position on a test ban treaty might be modified.

A prior Cabinet-level meeting of agency chiefs concerned with the nuclear test situation is scheduled for Thursday. Salinger said he did not know whether a final decision would be reached by the end of this week.

The White House announcement was accompanied by these developments:

1. U.S. disarmament Chief William C. Foster discussed atomic test ban safeguards at a closed session of the Senate disarmament subcommittee.

2. Foreign Secretary Lord Home told the British Parliament that the United States and Britain may now propose easier terms for a nuclear test ban accord, but said on-site inspections will still be needed.

The question of reducing inspection demands has been tossed to Washington's decision makers as a result of project Vela, a U.S. program aimed at improving methods of detecting below-ground atomic shots. Recently announced results indicated nuclear explosions underground can be spotted at a greater distance than previously supposed.

Senate Probers Rap Hoffa's 'Callous Disregard'

Washington (AP)—Teamsters President James R. Hoffa was described by Senate investigators Wednesday as showing a callous disregard of whether his own union members were robbed by their officers.

The Senate Investigations subcommittee said in a delayed report to the Senate that, "Hoffa's attitude was one of defiant indifference to the interests of the rank-and-file members of Local 239 whose treasury was being exploited and misused by corrupt and dishonest officials."

Local 239 was described in the report as part of the racket empire of New York mobster Antonio Tony Ducks Corallo.

No Comment

Hoffa had no comment on the findings.

Sen. John L. McClellan, D-Ark., subcommittee chairman, told the Senate the report was held up more than 6 months at the request of the Justice Department. He said this was to avoid any interference with a conspiracy trial which ended June 16 in Corallo's conviction.

Corallo was tried with former New York Supreme Court Justice J. Vincent Keough and Elliott Kahaner, former chief U.S. attorney in Brooklyn, on charges of conspiring to fix a federal court criminal case.

Bossed 5 Locals

In a speech to the Senate, McClellan said the evidence presented at subcommittee hearings in January 1961 showed Corallo has bossed at least 5 Teamsters Union locals in New York with Hoffa's connivance.

McClellan said the most disturbing aspect was what he called Hoffa's "defiant and callous attitude" and "his refusal to take corrective action in the face of conclusive evidence concerning underworld control of a Teamster local and the corruption flowing therefrom at the expense of the dues-paying membership."

In its report the subcommittee said Hoffa had used every available means to "thwart bona fide attempts" by federal court-appointed monitors to clean up the union.

Reject Denial

The 6-member subcommittee unanimously rejected Hoffa's denial that he had sent this word to Corallo: "I don't care if you want to—you want to steal, you want to rob, go ahead. Don't get caught.

"I don't care how you take the money. I don't care how you take it—get it under the table—get it any way you want."

Noting Hoffa's denial, the subcommittee said: "Whether or not Hoffa made such a statement is unimportant. This subcommittee by force of the overwhelming evidence must conclude that Hoffa, in callous disregard of the welfare of the Teamster membership, in fact does not care whether officials of Local 239 or, for that matter, officials of any other segment of the Teamsters Union, are robbing, stealing, dealing under the table, or indulging in any other improper or criminal activities."

Churchill Puts Weight On His Broken Left Leg

London (UPI)—Sir Winston Churchill now is able to put his weight on his broken left leg and can walk with assistance, a medical bulletin said Wednesday.

The doctors, in a further indication of the 87-year-old former prime minister's satisfactory recovery, said "it is hoped no further bulletins will be necessary."

Stocks Aided By A Late Recovery

New York (AP) — A late recovery movement Wednesday saved the stock market from what would have been its third straight decline and left prices mixed. Trading was moderate.

The list met support at the level to which it sank July 18, around 571 in the Dow Jones industrial average, and rallied from there.

The Dow industrials, which at 1 p.m. EDT were off 3.01 at 571.11, ended the day with a slight gain of .55 at 574.67.

Volume rose to 2.91 million shares from 2.56 million Tuesday.

A general improvement was spearheaded by AT&T and several of the "growth" stocks. AT&T made an uncertain start but by the close was up 1¾ at 110½.

The session was accompanied by some fairly encouraging news. The consumer price index edged up to a record high in June. The U.S. dollar strengthened in foreign exchange markets.

The Associated Press average of 60 stocks took a minimal loss of .10 at 214.00 with industrials off .10, rails off .40, and utilities up .20.

The change in market sentiment was also reflected by the list of 15 most active stocks, of which 10 rose, 3 fell, and 2 were unchanged.

Standard & Poor's 500-stock index rose .10 to 56.46.

While the "big" stocks bolstered the market averages, losers outnumbered gainers by 562 to 412 among the 1,225 issues traded. New lows for the year totaled 31. There were no new highs.

American Stock Exchange prices were mixed.

Corporate bonds were mixed. U.S. government bonds were mostly unchanged.

Dow-Jones Stocks and Bonds

New York (UPI) — Dow-Jones closing range of averages:

Stocks:

	Open	High	Low	Close	Net Chg.

Soybean, Feed Grains Higher

Chicago (AP)—Soybean and feed grain futures posted a broad general recovery Wednesday after having sold most of the week at season low levels on the Board of Trade. Wheat and rye were steady to weak.

Old crop soybeans were in heaviest demand with the August delivery gaining more than three cents a bushel, its best gain in several weeks. Brokers ascribed the support to the government's report of stocks in all positions which many speculators construed as bullish.

The report revived talk of the likelihood of tight commercial supplies before the end of the crop year.

The firmness in the feed grains and new crop soybeans was credited to short covering. Brokers said the reversal was a normal reaction to several successive setbacks such as those experienced the past week or so.

At the close, wheat was ¼-1 cent a bushel lower, September $2.14⅝-½; corn ¾-1 cent higher, September $1.09¼-¼; oats ⅜-1 cent higher, September 63¼-62⅝; rye ¼ higher to ⅝ lower, September $1.21¾-22; soybeans ⅝-¾ higher, August $2.48⅜-¼.

Markets At A Glance

New York (AP)—

Stocks — Mixed; moderate trading.

Bonds—Mixed; quiet trading.

Cotton—Higher; trade and commission house buying.

Chicago:

Wheat—Mostly easier; May weak.

Corn — Higher; moderate general demand.

Oats—Up with corn.

Soybeans—Higher; old crop months strong.

Hogs—Mostly steady; top $19.50.

Slaughter steers—Steady to 75 cents higher—top $29.50.

Ford Profits Show 6-Month Increase

Detroit (AP) — Ford Motor Co. Wednesday reported a profit of $268.3 million for the first 6 months of 1962. This compared with $209.4 million in the first half of last year.

Adjusted for the two-for-one stock split which occurred during the second quarter, the earnings were equivalent to $2.44 a share as against $1.90 a share, for a comparable number of shares, in the first 6 months of 1961.

During the second quarter Ford earned $140.6 million on sales of $2.04 billion. Sales for the six months totaled $4.04 billion.

Last year Ford earned $133.2 million in the April-June quarter on sales of $1.878 billion.

Butcher Hogs Steady, Strong

Omaha (AP) — Butcher hogs were mostly steady to strong in Omaha Wednesday. Instances were a quarter higher. Number 1 and 2 grades were steady to weak, some off 25 cents.

Sows were steady to strong.

Steers and high good and choice heifers over 850 pounds were up 25.

Spring slaughter lambs were steady to 50 lower, slaughter ewes steady to 25 higher and feeder lambs steady.

OMAHA

Hogs: 8,000; barrows and gilts mostly steady to strong; instances 25 higher; 1 and 2 steady to weak; instances 25 lower; sows steady to strong; 200 head 1 and 2, some sorted, 190-240 lbs 19.35-19.50; 1-3 190-240 lbs 18.75-19.25; 240-270 lbs 18.00-19.00; sows 270-330 lbs 16.50-17.00; sparingly 17.25; 330-400 lbs 15.00-16.50; 400-600 lbs. 14.00-15.50.

Cattle: 7,000; calves 125; steers mostly 25 higher; high good and choice heifers over 850 lbs strong to 25 higher; others mostly steady cows fully steady; bulls steady to strong; vealers steady; feeders about steady; high choice and prime 1,290 lbs steers 27.50; 1,200 lbs 27.40; high choice with end prime 1,225-1,350 lbs 27.25; choice 1,000-1,300 lbs 26.25-27.00; mixed good and choice 25.25-26.00; good 23.50-25; high choice 925-1,000 lbs heifers 26.15-26.25; choice mixed steers and heifers 26.50; most choice heifers 25.25-25.75; few loads 851-975 lbs 26.00; mixed good and low choice 22.50-25.25; utility cows 15.00-16.00; individual 16.25-16.50; canner and cutter 13.25-14.75; some 15.00.

Sheep: 1,500; spring slaughter lambs steady to 50 lower; slaughter ewes steady to 25 higher; feeder lambs steady; mixed choice and prime 90-105 lbs spring lambs 21.50-22.00; mostly choice 85-102 lbs 20.50-21.50; mixed good and choice 20.00-20.50; good and choice 94-101 lbs old crop lambs and yearlings, mostly yearlings, No. 1 pelts 17.00-17.50; cull to good shorn ewes 4.00-6.75; choice 60-65 lbs. spring feeder lambs 17.00.

CHICAGO

Hogs: 4,000; mostly steady; No. 1-2 200-225 lb. 19.25-19.50; around 70 head at 19.40-19.50; mixed No. 1-3 190-240 lb. 18.75-19.25; bulk 18.75-19.00; 240-260 lb. 18.25-18.75; heavier weights scarce.

Cattle: 9,000, calves 25; slaughter steers average good and better 25-75 higher, low good and below steady; heifers mostly 25-50 higher; few loads prime 1240 lb. feed steers 29.25 and 29.50; nearly a dozen loads mostly prime 1200-1325 lb. 29.00; bulk choice and mixed choice and prime 1150-1400 lb. 26.75-28.75; most choice 900-1150 lb. 26.00-27.50; load mixed choice and prime 1045 lb. 23.00; mixed good and choice 25.50-26.75; most good 24.25-26.00; several loads mixed choice and prime 975-1040 lb. heifers 26.75-27.00; bulk choice 25.25-26.50; good and mixed good and choice 23.00-25.25; few good and choice vealers 25.00-29.00.

Sheep: 600; spring slaughter lambs steady; couple lots choice and prime 85-100 lb. spring slaughter lambs 23.00-23.50; good and choice 20.00-22.00.

The butcher hog market was steady again Wednesday on another light supply, the smallest for a Wednesday since April.

Trade was active for the offerings of 4,000 head and with a good shipper demand the practical top was unchanged at 19.50 for mixed No. 1 and 2 grades weighing 200-225 lbs. Other similar offerings sold upward from $19.25 and the mixed 1-3 grades scaling 190-240 lbs at $18.75-19.25. Weights up to 280 lbs moved at $18.25-18.75. Heavier offerings were scarce. Sows cleared at $14-17.

The cattle supply also was well below the usual Wednesday run and with slaughter steers selling steady to 75 cents higher, a few prime grade brought $29.50, the highest price in two months. They averaged 1,240 lbs.

Mostly prime sold rather freely at $29 for 1,200-1,325 lb weights. Most choice and mixed choice and prime cleared at $26-28.75 and the good to mixed good and choice at $24.25-26.75.

Heifers sold mostly 25 to 50 cents higher, Vealers and bulls steady. Heifers reached $27 for mixed choice and prime and $26.50 for choice. Vealers moved at $25-29 for mixed good and choice, bulls at $18.50-20.50 for utility and commercial.

The sheep market was steady at $23-23.50 for mixed choice and prime spring slaughter lambs and $20-22 for mixed good and choice.

KANSAS CITY

Hogs: 3,200; barrows and gilts fully steady to 25 higher; sows fully steady; 1-3 200-260 lbs 18.50-19.00; 100 head uniform weights 210-235 lbs 19.10-19.25; sows 14.00-16.75.

Cattle: 2,500; calves 200; steers strong to 25 higher; heifers fully steady; cows steady to 25 higher; choice with few prime 1,050-1,200 lbs steers 27.25-27.50; high good and choice 1,000-1,250 lbs 25.75-26.50; choice 27.00; good with end of choice 23.50-25.50; high good and choice 800-900 lbs heifers 24.50-25.50; utility and few commercial cows 14.25-16.00; canner and cutter 12.00-14.50.

Sheep: 1,000; spring lambs steady to instances 25 lower; high choice and prime 85-100 lbs spring lambs 22.25; choice to prime 21.50-22.00; cull utility and good shorn ewes 4.50-6.00.

ST. JOSEPH

Hogs: 5,000; barrows and gilts over 200 lbs steady to 25 higher; under 200 lbs steady; sows steady to 25 higher; 1-2 205-230 lbs 19.10-19.25; 1-2 190-200 lbs 18.50-18.75; 1-3 200-250 lbs 18.50-19.00; sows 14.00-17.00.

Cattle: 2,400; calves 100; slaughter steers and heifers low choice or better strong to mostly 25 higher; lower grades steady to strong; choice and prime 1,100-1,285 lbs steers 27.00-27.25; high good and choice 24.75-26.75; good 23.00-25.00; high choice 929 lbs heifers 26.50; choice 25.50-25.75; good and choice 22.50-25.25; utility and Commercial cows 14.00-16.00; canner and cutter 11.50-14.25.

Sheep: 800; slaughter lambs fully 25 higher; choice and mostly prime 90-100 lbs spring lambs 22.25-22.50; choice and prime 80-100 lbs 21.50-22.00; cull to good shorn ewes 4.00-5.00; few 5.50.

SIOUX CITY

Hogs: 4,500; barrows and gilts 190-280 lbs fully steady; 280-340 lbs 25-50 higher; sows under 300 lbs steady; others 25-50 higher; 1-3 190-240 lbs 19.00-19.50; 1-3 240-270 lbs 18.25-19.25; sows 14.50-17.50.

Cattle: 5,000; calves none; slaughter steers strong to mostly 25 higher; instances 50 higher; heifers steady to 25 higher; cows steady to 25 higher; high choice and prime 1,367 lbs steers 28.00; high choice 1,150-1,350 lbs 27.00-27.25; low to average choice 26.00-26.50; high good and low choice 25.50-25.75; good 22.75

Soviet Officials To Die For Economic Crimes

Moscow (AP) — More than 9 Soviet officials in Frunze, capital of the Kirghiz Republic, reportedly have been sentenced to death for economic crimes.

The group was the largest known to have been sentenced to death at one trial since a decree was issued last year prescribing the death penalty for certain crimes, such as fraud.

The newspaper "Sovyetskaya Kirghiyia" received here named 9 defendants ordered to be shot. Among them was B. D. Dyushaliyeva, former chairman of the Republic State Planning Commission.

The report said an unspecified number of accomplices also had been sentenced to death by shooting.

At least 8 other defendants were given 15-year prison terms.

The sentencing of 4 of the condemned men named in the "Sovyetskaya Kirghizia" report was published in the Moscow newspaper "Izvestia."

Both accounts said the gang defrauded a local knit-wear combine of millions of rubles by producing goods with black market materials and reselling them illegally for a profit.

Police were said to have confiscated 23 kilograms of gold, 30 kilograms of silver and cash and property valued at more than a million rubles ($900,000).

The Soviet news agency Tass also reported that K. T. Degtyarev, a department head in the Soviet ministry of finance, had been sentenced to death for bribe-taking.

Loup City Shipper Is Found Dead

Omaha (AP) — James John, about 35, of Loup City, was found dead Wednesday in his car, parked on the Union Stock Yards Co. viaduct.

John had shipped livestock to South Omaha Tuesday. His wife called Wednesday and said her husband had failed to come home. Officials began a search and found the car.

Acting Coroner George Sullivan said the cause of death was not immediately determined.

Falls Bother Bakery Boss

New York (AP)— You housewives who occasionally have a cake fall while it's baking can be glad you're not William Cowan. For 18 months he has been having whole bakeries-full fall.

Cowan, head of the Babka Pastry Chain, has one of his establishments on Broadway near 94th Street in Manhattan. For a year and a half workmen have been extending a subway platform underneath the bakery, blasting and raising a racket with pneumatic drills during the day.

Moaned Cowan:

"They were the noisiest, troublesome months in our history. All of our lighter cakes kept falling. The air hammers broke the air cells in the batter.

"Our help got irritable. Things finally got so bad we had to switch practically the whole operation to night schedules."

'Against' Meet Readied

Tokyo (AP)—The leftist Japan Council Against Atomic and Hydrogen Weapons have sent delegates from 9 countries, including the United States, have signed up to attend its world congress here next month.

Dance Evolution Is Traced From Line To Twist

Swirling skirts, twisting pelvises and a hoop-leaping Wacisa Indian "brave" highlighted a multitude of national dances at Pinewood Bowl Wednesday night as an estimated 2,000 shivering Lincolnites watched.

Irvin Karpisek of Wilber and Explorer Scout Tom Schreiner from Lincoln's Post 500 drew the most applause. Karpisek performed on a push-button accordion and aroused rhythmical handclapping. Schreiner adroitly gyrated his way through a narrow hoop in many varieties of rapid motion.

Evolution of popular American dances — from the early minuet-like line dance to the twist — was convincingly demonstrated.

Czech descendants of Wilber ably performed the strenuous and melancholy "Beseda," following Latvian Lincolnites, who did the "Squirrel Polka" and "Little Ball of Yarn" dances.

An anticlimax came after American teenagers wriggled their way through variations on the twist called the "U2." As it ended a B47 whined its way overhead to a landing at the Lincoln Air Force Base.

JFK Is Still Considering Coast Cruise

Washington (AP) — President Kennedy still is considering a cruise along the Maine coast the weekend of Aug. 11 and a "nonpolitical" trip to the Far West the following weekend, the White House said Wednesday.

Press Secretary Pierre Salinger said that if there is a cruise, it will be only for the weekend, and "we are not going to remain until Aug. 15."

Aug. 15 is the date Kennedy has been invited to take part in the dedication of the Franklin D. Roosevelt Memorial Bridge between Lubec, Maine, and Campobello Island, New Brunswick.

Salinger said, however, that there is some discussion of dedicating the bridge early on the morning of Aug. 13 — a Monday.

And, if Kennedy goes West on what the White House called a nonpolitical expedition, Salinger said, he would think the President would visit Los Banos, Calif., for ground-breaking ceremonies for the San Luis Dam and Reservoir. A decision on the Western trip, Salinger said, should firm up in the next 48 to 72 hours.

Titan 2 Missile Short Of Target

Cape Canaveral, Fla. (AP)— Propulsion problems in the second stage caused a Titan 2 missile to fall far short of its planned 5,000-mile range on a test flight Wednesday.

The Air Force reported that many of the test objectives were achieved, but "preliminary data indicated a propulsion difficulty occurring during second stage, shortening the range."

The missile covered about half the intended distance.

This was the fourth test flight for Titan 2, most powerful military rocket now planned by the United States. Two of the previous 3 flights were successful over the 5,000-mile course.

DIVORCES

Petitions filed alleging extreme cruelty:

Joyce A. Robertson against Jack M. Robertson, married May 8, 1959, in Seward.

Decrees granted for extreme cruelty:

Betty J. Johnson from Rollie C. Johnson, married Aug. 3, 1946, in Lincoln.

MUNICIPAL COURT

Note: Each defendant mentioned pleaded guilty unless otherwise stated. City cases heard by Judge Richard O. Johnson; state cases by Judge John Jacobson.

City Cases

SELLING LIQUOR WITHOUT A LICENSE AND SELLING LIQUOR TO A MINOR — Milton P. Elliott, 2000 U, fined $100 and sentenced to 30 days in jail on first count, fined $100 on second.

INTOXICATED; DISTURBING THE PEACE; USING FOUL AND INDECENT LANGUAGE — John B. Cooey, 913 O, pleaded innocent, trial Aug. 27, $200 bond.

DISTRICT COURT

Felonies

RAPE, ROBBERY—Max Kniffen, 29, of Omaha, (charged with raping a 17-year-old Lincoln girl June 15 and taking by force property belonging to her), waived preliminary hearing, pleaded guilty to both counts, sentencing deferred by Judge Elmer Scheele, defendant committed to State Penitentiary.

PETIT LARCENY, SECOND OFFENSE —Donald R. Fisher, 51, of 400 Hartley, (charged with stealing property from a Lincoln man June 18, having been convicted previously of petit larceny), pleaded guilty July 20, sentenced to two years in the State Penitentiary by Judge Elmer Scheele.

SUPREME COURT FILINGS

Edith May and Elmer A. Michelsen Sr. appealed to the court the Cass County District Court's dismissal of their damage suit against Arnold and Dora Upton; Bryon Baker, and Colbert and Gerber, a partnership at Nebraska City.

Karl G. Heutter, in an appeal brief, contended the Douglas County District Court erred in instructions to the jury in a personal injury suit brought by Huetter against Alfred and Eileen Cascio. The jury returned a verdict for the Cascios.

The State of Nebraska asked the court to order a new trial in Lancaster District Court of a claim against the Department of Roads by the Francis R. Orshek Co. The District Court had awarded Orshek $6,843.

RAILWAY COMMISSION

Set 11 a.m. hearing July 31 on application of Iowa Public Service Co., Sioux City, Iowa, for an order authorizing issuance of 320,468 shares of common stock.

Set 10 a.m. hearing July 31 on request from Keystone-Arthur Telephone Co., Keystone, for authority to borrow funds and issue and deliver notes.

Set 1:30 p.m. hearing July 31 on request from Cambridge Telephone Co., Cambridge, for a certificate of public convenience and necessity.

Set 9:30 a.m. hearing Aug. 1 on request from Consumers Public Power District, Columbus, for authority to construct, operate, and maintain an electric transmission line in Lancaster County.

Set hearing Aug. 6 on application of Morgan Drive-Away Inc., Elkhart, Ind., with offices at 3744 Lake St. in Omaha, for authority to transport prefab buildings by the truckaway method between all points in Nebraska over irregular routes.

NEW CORPORATIONS

A. E. F. Corp., West Point; livestock feeding activities; Earl Ahrens and Leo Feyerherm, both of West Point, Willis Ahrens, Oakland, and Herman Engelmeyer, Beemer; $100,000.

Ambassador To Peru Bringing Kennedy Report

Lima, Peru (AP) — U.S. Ambassador James Loeb is flying back to Washington to report personally to President Kennedy on the military seizure of the government a week ago. From the foreign ministry meanwhile came a charge that Loeb took sides in Peru's recent presidential election and helped create "a climate of misunderstanding in Washington."

A statement emanating from the foreign ministry but branded as only semi-official said Loeb's departure from Lima would tend to ease "existing tension between the two countries."

The United States suspended diplomatic relations and cut off economic and financial help after the military leaders ousted 73-year-old President Manuel Prado and took him into custody last Wednesday.

Statement

The statement from the foreign ministry said:

"It is believed that the U.S. diplomat has, without regard to his specific mission, made incursions in the field of internal politics, showing clear predilection for one of the presidential candidates.

"These attitudes of Ambassador Loeb have damaged the prestige of the diplomatic task he has been carrying out in the country, and they have contributed, without a doubt, to creating a climate of misunderstanding in Washington."

Not Identified

The statement did not identify the presidential candidate by name but during the campaign Loeb had been accused of backing Victor Raul Haya de la Torre, candidate of the leftist, but anti-communist American Popular Revolutionary Alliance (APRA). Haya is an enemy of the military. Military leaders made it clear before the June 10 election it would not permit his rise to the presidency.

Loeb has denied the campaign charges, and before leaving for Washington declined comment on the statement coming from the foreign ministry.

Loeb said earlier he had been recalled for consultations, "as is normal in these circumstances." He added:

"I shall, of course, report fully on the present situation in Peru."

Predicted

The junta's foreign minister, Luis Edgardo Llosa, has predicted that the United States soon would recognize the military junta.

In Washington, however, State Department Press Officer Lincoln White said the junta had requested renewal of diplomatic ties in a note to the embassy in Lima. But White said the request was rejected.

JAMES LOEB

New Application Submitted For Interstate Bridge

Iowa and Nebraska have submitted to the Corps of Army Engineers a new application for the Missouri River Interstate Highway Bridge between Omaha and Council Bluffs, Nebraska State Engineer John Hossack reported Wednesday.

Plans set out in the new application conform with bridge height criteria recently set by the Army engineers and the U.S. Bureau of Public Roads, he said.

An earlier application was rejected because the plans called for a bridge only 45 feet above the standard high water mark. Navigation interests were among those objecting to the lower bridge.

The new criteria require a 400 foot wide channel, of which 300 feet must be 52½ feet above the standard high water mark, and an additional 70 feet of which must be above the two per cent line(the line above which the river does not flow more than two per cent of the time).

Hossack said he is hopeful of early approval of the new application.

The proposed bridge will be located about 200 feet upstream from the present Ak-Sar-Ben Bridge.

Mrs. Woods In Hospital After Fall In Wisconsin

Mrs. Thomas C. Woods of 2475 Lake was taken to a hospital in Washburn, Wis., after she suffered a crushed vertebra when she fell entering a cafe.

The incident occurred while Mrs. Woods was en route with her family to their summer home at Madeline Island, near LaPointe, Wis.

Mrs. Woods is the mother of Thomas C. Woods Jr., president of Lincoln Telephone and Telegraph Co.
